Welcome

The EGI Compendium survey aims to collect a structured set of data from the EGI.eu participants and associated participants (NGIs/EIROs) to create a body of knowledge to be updated on a yearly basis.

The collected data refers to key areas such as legal form, users, services, resources, technology and sustainability. The data will be analysed and organised in a booklet to be distributed within the EGI community and outside.

The objectives of the EGI Compendium are:

- to increase the transparency about organisational structure, status and plan of NGIs/EIROs
- to provide an essential body of information for the various stakeholders to better support strategic planning
- to provide more clarity about the EGI.eu partnership with the NGIs/EIROs outside the EGI community

The survey is structure in the following sections:

- identity and contact
- strategy
- governance
- funding of the NGI
- funding and staffing of the NGI/EIRO e-infrastructure
- policy
- outreach
- services
- users
- infrastructure
- technology

This survey should be filled by each NGI/EIRO that is a member of EGI.eu. In order to answer some question, NGIs need to collect data from the respective members. Therefore, we suggest to circulate an internal survey to collect the necessary information (especially those in section "Funding and Staffing of the NGI/EIRO e-Infrastructure").

FAQ:

- Q1. In which ways I can submit the answers to EGI.eu?
- A1. We invite you to submit the answers solely through this online survey; each NGI/EIRO is provided with a unique link that you can use to return on you survey and add/modify the data when needed
- Q2. Should I wait to have all the data before entering them into the online survey?
- A2. We recommend you to add the data incrementally as soon as they are available. We will periodically check the advancement status and partial information can be very useful.
- Q3. I need to collect info from many people and I would like to circulate an offline version of the questionnaire. Is this available?
- A3. An offline version of the questionnaire is available as editable PDF document at the following URL: https://documents.egi.eu/document/1032
- Q4. Some of the data have been already provided or is already available through tools like the EGI Operations or Accounting portals, why are these asked again?
- A4. The EGI.eu staff will take care of pre-filling the information already available before asking NGIs/EIROs to fill the survey; this will give the opportunity for them to validate the data and provide updates where needed
- Q5. I would like to draft the answers in a collaborative way with my colleagues, is there any option for collaborative editing?
- A5. You can create a google docs based on this template http://go.egi.eu/egi-compendium-2011-template before sharing the document we suggest you to copy into it the data that we already collected for you in order to be validated

EGI Compendium 2011 Identity and Contacts *1. With this survey, are you providing information on behalf of an NGI or EIRO? C EIRO 2. What is the full name of the NGI/EIRO? (in English) 3. What is the abbreviation of the full name in English of the NGI/EIRO? 4. What is the full name and abbreviation of the NGI/EIRO in the national language(s)? For each national language, specify, e.g.: Language (in English), full name of the NGI/EIRO (in the national language), abbreviation (in the national language) 5. What is the URL to the logo of the NGI/EIRO? 6. What is the represented country? (NGI-only question) 7. What is the postal address of the NGI/EIRO? Address 1: Address 2: City/Town: State/Province: ZIP/Postal Code: Country: **Email Address: Phone Number:**

8. What is the website URL of the NGI/EIRO?

9. Who is the NG	I/EIRO member of the EGI Council?

15. In what year	the NGI/EIRO was established?
16. In what year	Grid Operations started in the NGI country (or EIRO)?

EGI Compendium 2011	
17. Please, briefly describe the history of the NGI/EIRO as related to the Grid activ	rities
(or add a URL to a webpage)	

18. Does the NGI/EIRO have a defined strategy document for Grid and distributed computing? No Yes 11 yes, add the URL to the document 19. What is the NGI/EIRO vision for Grid and distributed computing? (The vision is an aspirational description of what the NGI/EIRO would like to achieve or accomplish in the mid-term/long-term future, and should serve as a clear guide for choosing current and future courses of action;see also the EGI Vision definition in http://go.egi.eu/EGI2020) 20. What is the NGI/EIRO mission? (The mission is a written declaration of the NGI/EIRO's core purpose and focus that normally remains unchanged over time. Properly crafted mission statements (1) serve as filters to separate what is important from what is not, (2) clearly state which markets will be served and how, and (3) communicate a sense of intended direction to the entire organisation. A mission is different from a vision in that the former is the cause and the latter is the effect; a mission is something to be accomplished whereas a vision is something to be pursued for that accomplishment; see also the EGI Mission definition in http://go.egi.eu/EGI2020) 21. What are the NGI/EIRO core values? (max 5) (Core values are guiding beliefs that guide the [Q1]'s internal conduct as well as its relationship with the external world; see also the EGI Core Values definition in http://go.egi.eu/EGI2020)	EGI Compendiu	um 2011
computing? C No C Yes If yes, add the URL to the document 19. What is the NGI/EIRO vision for Grid and distributed computing? EGI	Compendium 2011
Out	reach
	Does the NGI/EIRO publish a regular newsletter or annual report or case studies or ok?
0	No
O	Yes (please list them and provide URL if applicable)
57.	Does the NGI/EIRO run a regular event? (e.g., annual workshops, schools)
0	No
О	Yes (please list them and specify the URL)
58.	Does the NGI/EIRO run project websites?
0	No
O	Yes (please specify the URLs)
59.	Is the NGI/EIRO active in social media?
	LinkedIn
	Facebook
	Twitter
	Google+
	Other (please specify)
	If the NGI/EIRO is active in social media, please specify the URL to the relevant ges/profiles

EGI Compendium 2011 Services 61. Does the NGI/EIRO operate an internal Certification Authority? Yes, to issue certificates for users Yes, to issue certificates for servers Yes, to issue certificates for code signing If no, please, specify how do you or your users provision digital certificates and if you plan to build a CA in the future 62. What services are provided by the NGI/EIRO to the users? ∇O monitoring Data management services Job management services Science gateways Digital certificates services Other (please specify) 63. What is the number of training days for Grid end-users or Grid operators offered in 2011? (a training day should be calculated per training event and not related to the number of participants) 64. How many Grid end-users or Grid operators attended training events during 2011? (if the same person attends two different training events, then it counts double)

t the end of 201		s had valid crede	ntials released by th	e NGI/EIRO
66. How many Vi	tual Organisations	(VOs) are suppor	ed by the NGI/EIRO?	?
7. What are the	op 3 VOs by usage (logical CPU wall	ime\?

EGI Compendium 2011 Infrastructure 71. How many resource centers are coordinated by the NGI/EIRO? 72. What is the total logical CPUs (cores) available via the NGI/EIRO at the end of 2011? (includes all resource centers) 73. How many of these logical CPUs (cores) are dedicated to run virtual machines? (includes all resource centers) 74. How many hours of logical CPU (core) wall clock time were consumed in the NGI/EIRO infrastructure during 2011? 75. What is the percentage of utilisation of the logical CPU (core) capacity in 2011? 76. What is the total GPUs available via the NGI/EIRO at the end of 2011? (includes all resource centers) 77. How many hours of GPU wall clock time were consumed by users of the NGI/EIRO infrastructure in 2011? 78. What is the percentage of utilisation of the GPU computing capacity in 2011 79. What is the size of disk storage (in TB) available via the NGI/EIRO at the end of 2011? (includes all resource centers)? 80. What is the size of tape storage (in TB) available via the NGI/EIRO at the end of 2011? (includes all resource centers)? 81. Does the NGI/EIRO have a pool of resources dedicated to enable new users to try the Grid services? Number of Logical CPUs

Disk Storage (TB)
Tape Storage (TB)
