- NGIs/EIROs are evolving organisations
  - Need to increase transparency and clarity among partners
- EGI is developing its long-term strategy
  - Need to support strategic planning with the right data
- EGI partnership a valuable asset for the ERA
  - Need to provide a better/rich description

1. Define scope and structure of the compendium
2. Define the functionality of the tool enabling the stakeholders to update the information anytime
3. Launch of the first iteration of the EGI Compendium

- 08.03.2012
  - Close public comment
  - Feedback from IT, IR, MD, FR, UK, e-FISCAL
- 25.03.2012
  - Launch of the EGI Compendium survey
  - Closing the Virtual Team Project

84 questions to describe:

1. Identity and Contact
2. Strategy
3. Governance
4. Funding of the NGI
5. Funding and staffing of the NGI/EIRO e-infrastructure
6. Policy
7. Outreach
8. Services
9. Users
10. Infrastructure
11. Technology

- The EGI Compendium survey was launched
  - 25.03.2012 -> 27.04.2012 (1 month)
- Individual message to EGI Council members + NILs
- Tool: SurveyMonkey
  - Unique URL per NGI
    - Not guessable
    - No login: share carefully
    - Allow partial filling of data
    - **Already available data prefilled by EGI.eu staff to reduce burden on NGIs/EIROs: gathered from EGI.eu archives or EGI tools (e.g., EGI Accounting portal)**

- May 2012:
  - preparation of a report to share with the EGI partners and EGI-InSPIRE project reviewers
- After the EGI-InSPIRE review
  - Plan for better processes/tools for data collection:
    - to reduce burden on data collection
    - to be more secure (password protected?)
    - to become a primary source of data directly editable by NGIs for key information
      - E.g.: EGI Council/NILs/OpMan/... contacts
    - to allow timely update of data
