1 TITLE

The name of the group is Technology Coordination Board (“TCB”, hereafter also referred to as “the Group”).

2 DEFINITIONS

Word/Term	Definition
TCB	Technology Coordination Board
DMSU	Deployed Middleware Support Unit

3 PURPOSE AND RESPONSIBILITIES

The TCB provides the focus for the technologies that will be used within the EGI production infrastructure to deliver distributed computing services for the research communities. To support this goal it will:

- Prioritise requirements from the operations and end-user communities relating to their functional needs and behaviour of the EGI production infrastructure
- Develop a technology roadmap for EGI that will be implemented through its Unified Middleware Distribution (UMD)
- Source in components UMD through bi-lateral relationships with technology providers in the community
- Define generic or component specific criteria relating to the acceptance of new software releases from these technology providers
- Ensure a supply of software components that meet the needs of the operations and end-user communities within EGI
- Serve as appointed escalation and resolution body of any technology or technical process related disputes [R2]

TCB does not formally approve or adopt policies or advice; this is the responsibility of the EGI.eu Executive Board and the appropriate management bodies of the NGIs [R1]

4 AUTHORITY

- The Group is authorized by the EGI.eu Council through the EGI.eu Executive Board for establishing relationship with the technology providers that deliver components for deployment onto the EGI production infrastructure
- The Group will comply with the Policy Development Process [R1]
- The EGI.eu Council and the EGI.eu Executive Board are the governing bodies of the Group

5 COMPOSITION

5.1 Membership

The membership of the group is not fixed – in particular the representation from the technology providers will vary over time as the technology used within the production infrastructure changes. There are two criteria relating to the selection of technology provider:

- They must have an established collaborative relationship with EGI. This is generally expressed in a Memorandum of Understanding (MoU) and provides observer status in TCB.
- They are delivering, or have agreed to deliver, components into the EGI Technology Roadmap (software which may enter UMD). This will have been specified in a Service Level Agreement (SLA). SLA will be signed between EGI.eu and the technology provider in order for the technical provider to be eligible as a voting member of TCB.

Each voting member is entitled to nominate a deputy. A deputy can only vote if the full member is not available

The list of members and deputies is maintained on the TCB wiki (see Section 6.2)

5.2 Chair

The Chair will be the EGI.eu Chief Technical Officer (CTO).

5.2.1 Duties

The Chair will be responsible for calling and running regular meeting and polling the membership for agenda items. Regular agenda items will include:

- Updates to the EGI Technology Roadmap and its primary component, i.e., the Unified Middleware Distribution Roadmap.
- Review and prioritisation of requirements from the Operations and End-User communities within EGI.
- To review and define activity within the scope of the technology unit

Materials for the agenda points will indicate if the item is informational or is designed to lead to decision.

5.2.2 Term of Office

The term of office is unlimited.

5.2.3 Method of Appointment

The CTO is an employee of EGI.eu appointed through EGI.eu's employment procedures.

5.3 Secretary

The EGI.eu Policy Development Team will provide a technical secretary.

5.3.1 Duties

The secretariat will support the Chair in:

- Preparation of the agenda
- Meeting logistics
- Preparation and development of policy papers
- Taking and distribution of meeting minutes within 10 working days after the meeting.

5.3.2 Term of Office

The term of office is unlimited.

5.3.3 Method of Appointment

The EGI.eu Policy Development Manager appoints the Secretary upon request by the Group chair.

6 OPERATING PROCEDURES

- The topics and issues to be addressed can be specified either by EGI management or by TCB itself.
- Any stakeholder of EGI also has the right to suggest topics for new policies and procedures or old policies and procedures which in their opinion need revision. These requests should be submitted to the Chair of TCB who will discuss with TCB during a subsequent meeting of the group. The decision whether to accept this request or not will be recorded in the minutes of the meeting and feedback will be provided to the original requestor.
- The Group deliberations happen by face-to-face meetings, phone/video conferences or via the Group mailing list.

6.1 Communications and Meetings

- All the members of the Group must subscribe to the mailing list and should use it as primary written communication channel (see Section 6.2)
- The TCB will meet every 4-6 weeks. Where practicable, the agenda together with reports and documents that relate to the meeting will be forwarded to members at least 1 week in advance of the meeting
- A quorum of members must be present before a meeting can proceed. At least 50% + 1 of the voting members must be present for the meeting to proceed
- Accurate minutes will be kept of the major discussion points and the decisions reached at each meeting of the TCB. The minutes of a meeting shall be distributed to the group within a week of the meeting
- The Chair/Secretary should make sure that all the updates concerning the group's meetings, agenda and minutes are posted on group's Wiki page (see Section 6.2)

6.2 Communication Channels

6.3 Decision making

- Wherever possible, the Group will arrive at proposed draft recommendations documents and/or advice by clear consensus, as determined by the Chair
- A voting process will only start if consensus cannot be reached in a reasonable time or if at least one third of voting members of the Group call for a vote

- Two-thirds of the voting members need to be represented for voting to take place
- A decision is adopted if more than 50% of the voting members cast their vote for a proposed decision
- If the Group's recommendations are adopted by majority vote, minority positions will be recorded and reported
- The Group may by majority decision refer matters for decision to the Director on issues where a consensus cannot be achieved

6.4 Reports

Written reports will be provided in advance of the meeting from the:

- DMSU Team leader: maintenance interactions that have been undertaken with the external software providers
- EGI Software Repository: the releases that have been contributed to the repository from the community and their current status
- Criteria Definition: the refinements that have been made to the quality criteria as a result of feedback from the user, operations or provider communities
- Criteria Validation: how the criteria have been applied to the delivered releases and the effectiveness of the software developers in meeting these criteria
- CTO: other actions not covered in previous reports

7 EVALUATION

At regular intervals the effectiveness of the technology providers in meeting the published generic or component specific quality criteria will be assessed. As will the effectiveness of the criteria in being assessed.
