Component status	VERIFIED	Date	1 <sup>th</sup> March, 2013
Verification start date	27 <sup>th</sup> February, 2013	Verification end date	1 <sup>th</sup> March, 2013

**Summary:**

\*EMI-2 WMS.sl6.x86\_64\_3.4.1 was successfully upgraded from UMD repository from a previous WMS 3.4.0 version. The only package affected to this release was updated in a EMI-2 UI SL6 node and the testing to check the bugfix was performed from this node.

\*As the component is a revision release, we checked only the QC affected by update changes (one bug fix) and the results were fine.

\*In “Updated artifacts” section inside the release notes of the product:

[http://www.eu-emi.eu/emi-2-matterhorn/updates/-/asset\\_publisher/9AgN/content/update-9-21-02-2013-v-2-6-1-1#WMS\\_v\\_3\\_4\\_1](http://www.eu-emi.eu/emi-2-matterhorn/updates/-/asset_publisher/9AgN/content/update-9-21-02-2013-v-2-6-1-1#WMS_v_3_4_1)

There are some errors:

In “Binaries/SL6” it shows:

*glite-wms-ui-commands-3.4.0-5.sl5.x86\_64.rpm*

and the link doesn't exist. It must be with sl6:

*glite-wms-ui-commands-3.4.0-5.sl6.x86\_64.rpm*

And in “Sources/SL6” the link is broken too.
