Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

Tiziana's plenary was too long. I would have preferred 3 or 4 shorter more focused presentations during the plenary which represented the "user" element a bit more. My main issue throughout the conference is that every session did not finish on time. Chairing of sessions was very poor in this respect. It would have been helpful to have announcements in the tea and coffee areas that sessions were e.g. starting in 5 minutes.

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Catering was fantastic.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Didn't attend. The conference dinner should have been on Wednesday and closing plenary on Thursday lunchtime to enable folks to fly back Thursday pm/Friday morning. Especially as Bari is not that easy to get to.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Umbrella was enormous!

Q7: How was the Internet connection throughout the week?

Good - but would have preferred eduroam.

Q8: Do you have any comments about the online registration & payments system?

Respondent skipped this question

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Bari was difficult to get to easily - and expensive too. i would have preferred somewhere more centrally located. That said, the conference venue was fantastic - although the rooms were rather dispersed across the site.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Respondent skipped this question

Q11: Compared to similar events that you have attended, do you have any feedback on the fees for the event?

The registration fees Very expensive

Accommodation fees Acceptable

Travel to the event Expensive

Any comment?

Fee was very expensive compared to other events of this type. It almost put me off attending. These should be significantly reduced next time.

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Respondent skipped this question

Q13: Finally, is there any other feedback you would like to give us?

The event was well organised - but please brief session chairs on what is expected i.e. that the session doesn't massively over run. It would have been more interesting to focus more on requirements e.g. the astrophysics session covered this only in the last 5 minutes which was a shame. A joint approach with other e-Infras to user forums seems like a good way forward.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

it was well organised, and I enjoyed it a lot. Thanks!

Q2: What was your main source of information about the conference? The INDICO pages, The CF2015 website

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

The staff were friendly and efficient. Lunchtime food wasn't too good, too much bread and pasta. It was tasty enough, but high on carbohydrates, low on anything else.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The city tour was excellent, thanks!

The music at the dinner was good, but way too loud. I left after 45 minutes and took a taxi back to my hotel, so I have no idea what the food was like, there wasn't any being served by the time I left, just snacks.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

that was fine, thanks.

Q7: How was the Internet connection throughout the week?

reliable, good.

Q8: Do you have any comments about the online registration & payments system?

no, it all seemed straightforward.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

the venue was fantastic, I'd be very happy to go there again! Sometimes the rooms were a little crowded, but not too much.

More electricity sockets would have been good, but I think everyone managed OK.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Respondent skipped this question

Q11: Compared to similar events that you have attended, do you have any feedback on the fees for the event?

The registration fees	Acceptable
Accommodation fees	Acceptable
Travel to the event	Acceptable

Any comment?

I initially booked the Grand Hotel Leon D'Oro, but changed after one night. The 4-star room I was in had a broken shower and the walls weren't clean. That just wasn't acceptable. Fortunately for me, the Villa Romanazzi Carducci still had room, and took me in at very short notice. They even gave me the conference rate, which was very kind of them!

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Keep up the good work!

Q13: Finally, is there any other feedback you would like to give us?

no, other than to thank you for all the hard work you put it. I really appreciate it, despite complaining about a few points. I had a great time in Bari, thanks!

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

the programme went as smoothly as possible even though it was quite exhausting for those that had to follow 9-9 sessions.

Q2: What was your main source of information about the conference?

The INDICO pages,
Do you have suggestions to improve events communications?
The Conference4me app didn't offer location for each session.

Q3: During registration and before the event, was the organising team helpful?

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

italian food at its best, it would be nice to offer soda drinks though.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

yes city tour was a nice touch, even though

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

none what so ever.

Q7: How was the Internet connection throughout the week?

terrible is a kind word to say about the wifi coverage.

Q8: Do you have any comments about the online registration & payments system?

a bit old fashioned and confusing but it did its job.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

the venue was perfect for this size of conference, the only exception was the room at the basement that was too hot for 3hours sessions.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Respondent skipped this question

Q11: Compared to similar events that you have attended, do you have any feedback on the fees for the event?

The registration fees	Acceptable
Accommodation fees	Good value
Travel to the event	Acceptable

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

training events should probably be hosted in user /communities conferences or special ones instead of our own. The participation in training event was quite limited. Also specific workshops at the end of the week like the open cloud workshop may sound like a good idea to cut down travel expenses but people were quite tired already with the regular conference.

Q13: Finally, is there any other feedback you would like to give us?

DIRAC service tutorial was one of the best tutorials I have ever attended. It was very well planned and the instructor was simply excellent.

D4Science and COMPSS tutorials were also very good.
I learned a lot from DIRAC, D4Science and COMPSS tutorials.

BUT Intro EGI Fed Cloud Tutorial and the EUDAT Tutorials were very bad. The people giving these tutorials just scrolled rapidly all the slides, screens etc. They did not really plan the tutorial beforehand. There was no way to learn anything from these tutorials.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

Interesting programme, good networking opportunities.

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Catering, especially lunches were lower quality than at past events. The buffet run out of food very quickly. If your session finished late it was hard finding any choice.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Both the venue and the menu were relatively low quality. The food was served far too late, seats were uncomfortable, and the quality of food was poor. Past events were much better. Guided tour was interesting.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

On-line programme was useful. Conference bag was also useful and giving a smaller bag better fitting to hand luggage was a good idea.

Q7: How was the Internet connection throughout the week?

Perfect, outstanding.

Q8: Do you have any comments about the online registration & payments system?

I have not used it, my institution registers us centrally.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Venue was really nice and pleasant. Fantastic surroundings. Unfortunately the acoustics of the rooms were poor and in some rooms there was constant background noise from hotel staff.

Q3: During registration and before the event, was the organising team helpful?

Awesome food, awesome catering. I would have loved a bit more of fruit during coffee breaks for a healthier snack.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

I could not attend.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Respondent skipped this question

Q7: How was the Internet connection throughout the week?

Fine, although sometimes it had hiccups.

Q8: Do you have any comments about the online registration & payments system?

No

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Some small rooms were crowded (for instance tutorials) whereas other bigger rooms were empty. There was the classical lack of power cords in the rooms. Moreover, chairs were not so that comfortable, without a table for taking notes or putting the laptop in.

I do agree that tutorials must have a limited number of participants so that speakers can handle them properly, but some of them are really interesting, so people should be able to attend just for listening, even if they're not participating.

Any comment?

Traveling to the event was OK in price, but it was a hard combination for getting there.

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

I would add more importance (i.e. more time) to working groups rather than presentations. F2F discussions are fruitful, but sometimes they had to end soon because of a lack of time.

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Food at lunch and coffee breaks was great.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

I did not attend the conference dinner, but the news on Friday was that the ambience was noisy and food was average.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

None.

Q7: How was the Internet connection throughout the week?

Q8: Do you have any comments about the online registration & payments system?

On-line registration and payment was some what complex.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Electricity for laptops could have been better in some rooms.

There were fewer plenary talks this year. It will be good for future events to have keynote speakers that attract wide attention and that also may address interesting/surprising topics that have not been covered at earlier events.

Q13: Finally, is there any other feedback you would like to give us?

The EGI conference is a great event that gathers many stakeholders in infrastructure. There is no equivalent in Europe. They should be continued (at least once a year).

The INDICO pages, The CF2015 website, Mails and news

Q3: During registration and before the event, was the organising team helpful?

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Everything was good, especially the welcome reception

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

- The music was a bit loud during the dinner
- The menu was a bit heavy, I mean, rice and pasta for dinner? No way!
- The tour was nice

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

- The umbrella was useless

Q7: How was the Internet connection throughout the week?

In general terms the connection was good. Sometimes was overloaded but I think that this is normal.

Q8: Do you have any comments about the online registration & payments system?

Respondent skipped this question

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

- The place of the venue in Bari was amazing, however It was a bit difficult to reach Bari because there are no direct flights to Bari.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

It could be helpful to have more plenary speakers outside of EGI (OGF, Globus, EUDAT, EC...).

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Excellent.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

You already know music was too loud... The city tour was an excellent idea (although I expected to see the famous theater or fortress), it is mandatory to keep it in future events.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag? *Respondent skipped this question*

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

One comment regarding the closing session, only one speaker on a friday morning before the official closing session doesn't seem very practical in the attendee point of view. it would be better to keep other sessions meeting related in the rest of the day, otherwise the number od attendees will decrease due to extra costs of staying an extra night for one talk.

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Really good quality, pity that at lunch the food, in some days, wasn't enough (PS: by this I mean that when I got to the table there was no more food - lunches are also for networking so one should expect that people might arrive there almost at the end of lunch time).

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The tour was a great idea ! really nice.
 Dinner was ok. didn't understand why placing the dinner party before dinner. I know that the group was a typical Italian group, however in such a dinner we also chat, the volume of the music was so high that this was almost impossible...

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag? *Respondent skipped this question*

Q7: How was the Internet connection throughout the week?

the internet connection was ok, with some breaks in the main hall.

Q8: Do you have any comments about the online registration & payments system?

no

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Acoustic was not good in one of the rooms, strange not to have power plugs available in the rooms (just a couple of them is really not practical).

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Q13: Finally, is there any other feedback you would like to give us?

Nowadays international conferences are struggling with participation numbers due to the prices of accommodation and registration. I think that keeping a conference of this size (3-4 days) in places where it is expensive to stay and it takes a long time to reach (like this one) can be a risk for future attendance.

Q2: What was your main source of information about the conference?

The INDICO pages,
Do you have suggestions to improve events communications?
The slides for each session must be available, at least at the beginning. Even better would be before the forum starts... That is a must. Tutorial sessions abstracts must include minimum prerequisites, or frustration will happen. The tutorials should have been field tested beforehand, maybe by a team of volunteer people. I'd volunteer myself as much as I can, if such a team is created for next forum

Q3: During registration and before the event, was the organising team helpful?

Quite Helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Almost perfect, space was a little scarce at lunchtime, but all in all very good.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Music was way too loud, people are here to talk to each other, this was bordering on ear-hurting at times, and I was at the other end of the room.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

The site map was nice, even if hidden in the personal id card

Q7: How was the Internet connection throughout the week?

Sufficient

Q8: Do you have any comments about the online registration & payments system?

-

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Acoustic was a pain, in scuderia there was the kitchen nearby, audio equipment was not really helpful. Some people didn't even use it. In the big room (europa if I remember) it was even worse, the room was resounding in a way that rendered the loud speakers useless, not a pleasant experience at all trying to listen, but not understanding what was told.

Video, layout, size were all OK, in comparison

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Any comment?

Try harder on: 1- Audio / sound 2- Tutorial sessions 3- Presentation material should be available before the event, it's painful, but invaluable (look at the french JRES event)

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Keep the italian food ;-)
Work on the pain points

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

I would like to see a couple of large science keynotes in the program. Does not necessarily need to be about the EGI infrastructure but can be about how ICT resources contribute to science.

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

The catering was very good. The sweets during the coffee brakes (and the coffee itself) were amazing.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Dinner was fine.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

No.

Q7: How was the Internet connection throughout the week?

One of the best I've had at any conference.

Q8: Do you have any comments about the online registration & payments system?

No.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Conference venue was very nice, keeping everybody 'on campus' was clever. One note: the basement room in the main building was very impractical: noisy and warm.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

- city tour: good, however could last a bit longer (we were waiting for the dinner)
- it's a pity that no information about the group I Scianari was provided (it could be a link to <http://www.iscianari.it/II%20gruppo.html>) before the dinner

Sorry, couldn't participate.
For a week long meeting, you need some sort of outing of roughly 3 hours.
I prefer to have the dinner close to the hotels, so one can leave whenever.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Great food, served by nice people, in wonderful settings

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Allowing some time in conference schedule for visiting interesting places is surely a very good idea

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Respondent skipped this question

Q7: How was the Internet connection throughout the week?

good

Q8: Do you have any comments about the online registration & payments system?

Respondent skipped this question

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Very nice place, with many "quiet" corners ideal for unformal discussions, phone calls, ad-hoc mini meetings etc.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Respondent skipped this question

Q11: Compared to similar events that you have attended, do you have any feedback on the fees for the event?

The registration fees	Acceptable
Accommodation fees	Does not apply
Travel to the event	Acceptable

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Good food please!! (Maybe I say that because I am somehow traumatized by NIKHEF sandwiches ;-))

Q13: Finally, is there any other feedback you would like to give us?

keep on the good work!

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

Respondent skipped this question

Q2: What was your main source of information about the conference?

The INDICO pages

Q3: During registration and before the event, was the organising team helpful?

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Lunch and coffee break catering were excellent.

The timing of opening reception was a little disappointing - I arrived 10 minutes after the published start to find the end of the food, not the beginning.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The music was painfully loud - especially as we were arriving. A shame as it was great music.

Since the tour left us (on schedule) outside the venue at 45 minutes it would have been nice for the venue to be ready AND welcoming. As it was we were made to feel rather as though we were intruding. Otherwise the tour was great. But perhaps ending it at a bar or cafe would have been better.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Respondent skipped this question

Q7: How was the Internet connection throughout the week?

Connections were a bit flaky to start with but did seem to get better.

However, vpn was blocked. This is a real problem as many of us have to deal with some things back at our home institutes.

Q8: Do you have any comments about the online registration & payments system?

Respondent skipped this question

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Venue was really very nice. Power was as so often a little constrained.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

Cloud workshops were good though could have been a little more hands on.

Q2: What was your main source of information about the conference?

The INDICO pages, Mails and news,
Do you have suggestions to improve events communications?
Some of the info that was sent in emails could have been provided in a print out at registration.

Q3: During registration and before the event, was the organising team helpful?

I don't know

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Food and drink was good.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The tour was a very good idea. One of the highlights of the week.

Conference dinner was okay, although it could have been stage-managed a bit better as it was unclear what to do on arrival, and I didn't know when the buses were going to leave afterwards.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Generally good, though some presenters should be prompted to put up their slides.

Q7: How was the Internet connection throughout the week?

WiFi wasn't that great - somewhat intermittent. Unable to VPN to work.

Q8: Do you have any comments about the online registration & payments system?

Accpetable.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Some PA systems weren't used when they should have been for quiet presenters.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Very good but I would have preferred to have lunch sometimes seated.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The music was far too loud, it was impossible to talk with the people around my table

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

We found it useful that there were fewer parallel tracks and the talks were shorter (faster-packed is a better word)

Q2: What was your main source of information about the conference?

The INDICO pages, Mails and news,
 Do you have suggestions to improve events communications?
 Please try harder to include side events in the agenda. There was no schedule for Monday in Indico, even though there were EGI events held (NIL, operations, FedCloud). Also, the daily organization e-mail was a good idea but it gave misleading information (for instance about the welcome reception).

Q3: During registration and before the event, was the organising team helpful?

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

That was fine, although they run off wine too early during the welcome reception.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The music was unbearably loud, we spent half the time hiding in the bar area or on the (cold and smoker-packed) balcony. It spoiled it all for us.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Programme didn't contain Monday

Q7: How was the Internet connection throughout the week?

Surprisingly good.

Some explanation of what the food was would have been nice.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The music was too loud, but the food and view nice.

Very good food, but the vegetarian option was a little disappointing on occasion.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The city tour was good.

The conference dinner was OK; the music was a little too loud to begin with.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

- sometimes speakers should be made "stick to the topic" - needs detailed communication before the event, e.g. for the LToS the speaker should not explain his/her whole infrastructure and all the services ...

and please ask chairman and speakers to respect the schedule

Q2: What was your main source of information about the conference?

Conference dinner and ambiance was great!

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

Some of the parallel sessions I wanted to go to were at the same time. I know this can't be entirely avoided but it was worse than usual.

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

The catering was excellent. Nice to have lunch outside.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Having the walking tour before the dinner was a good idea.

Q7: How was the Internet connection throughout the week?

O.K.

Q8: Do you have any comments about the online registration & payments system?

Registration was O.K. The idea of sending a credit card number to book a hotel is not acceptable so I booked through other means.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

Was rather a wow venue. Sometimes the acoustics in the plenary room made it difficult to hear but I don't think there was much that could be done about that.

Any comment?

Its a bit of a nuisance having a 2 flight journey, as it meant I had to leave Friday morning to not lose Saturday as well as the previous Sunday.

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Proper lunch please not poor sandwiches like we sometimes get in Amsterdam!

Q13: Finally, is there any other feedback you would like to give us?

It was good that we were able to stay in the conference hotel and not have to commute.

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Marvelous food, reception and catering (and weather!).
 Sometimes the timetable of the sessions was not respected and we arrived too late to the lunch, there wasn't much food left...

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

The social dinner had nice music but too loud.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Food and service was ok but it took too long to get going at the beginning and that music was just too loud!
 City tour was very interesting.

Q7: How was the Internet connection throughout the week?

Fine.

Q8: Do you have any comments about the online registration & payments system?

Conf. registration was easy but I was unwilling to put my credit card number in an email/fax to reserve the hotel room so ended up having to do bank transfer which was expensive for my employer.

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

The venue was good except for difficulty arranging suitable flights to Bari from the UK.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

It would be nice to have one plenary dedicated to report from some large technical project or activity outside EGI (to expand the view of what we/EGI community are doing).

Q2: What was your main source of information about the conference? The INDICO pages

Q3: During registration and before the event, was the organising team helpful? Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

Very good, although a little disorganized (not clear food will come when) and the amount of more attractive food was limited (but this is understandable unless one wants to waste)

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Very much liked the tour; the dinner was fine.

Q7: How was the Internet connection throughout the week?

Reasonably well

Q8: Do you have any comments about the online registration & payments system?

No problem encountered

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

The place was lovely; few sessions crowded, but it is difficult to make a 100% precise guess on interest,

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

EGI-Engage's day was not really about EGI-Engage. For example, NILs' session was in this day but the NILs' activities are not paid through EGI-Engage.

This day was not in the conference programme. I think it should be in the programme to foster conference attendees to participate.

This day implied a travel on Sunday and I think it could be a good reason for less attendees.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Music was too loud and it was very uncomfortable. I was not able to appreciate it and not able to discuss with people around me.

The city tour was very interesting and pleasant.

This format is good and you should repeat it.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

First day was in fact not Engage related. Fed cloud, OMB and NILs are not EGI Engage bodies but EGI community, and Engage meetings were during conference so the program was quite weird.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

Tour was excellent and very appreciate. It was a pity that Indigo organized during that time a meeting in the last moment. Dinner was... so people were leaving to go to the center to eat sth (!) and the music was way too loud.

Q1: Do you have any comments about the programme for the event, for example the plenary speakers, parallel sessions or workshops?

I only attended the Open Science Cloud Workshop on Friday. The panel and list of topics was really interesting, covering a wide variety of thematic areas and use cases. This highlighted the high potential of the envisaged Open Science Cloud in different research areas.

Q2: What was your main source of information about the conference?

The INDICO pages, The CF2015 website,
 Do you have suggestions to improve events communications?
 The INDICO pages were not really usable, as much of the information was not easily available (but this may be my personal view only). However, they indeed contained much information and frequently updated

Q3: During registration and before the event, was the organising team helpful?

Very helpful

Q4: Please let us know your feedback on the conference catering ie the coffee breaks, the welcome reception and the lunchtime catering

The quality of the snacks offered during the breaks was high but the variety was limited. Finger food works great for such large events and adding a local snack (focaccia?) was a nice idea.

What I noticed on Friday is that due to the high number of participants there was a crowd waiting to be served despite the ample space. Maybe having the breaks at a different time for each parallel workshop would work better.

Q5: Do you have any comments on the conference dinner on Thursday, for example about the menu, the service or the venue? Did you like the city tour before dinner? Should we repeat this format in future events?

I did not attend but it looked extremely interesting.

Q6: Do you have any comments on the conference materials, e.g. online programme, conference bag?

I did not receive the Conference Bag as I had only registered for Friday's workshop and I was not sure if I had to pass through the registration desk (and where it was) and if there was a Conference bag for me.

Q7: How was the Internet connection throughout the week?

As I failed to take a conference bag (which included the credentials for each participant), I did not have access to the internet during the workshop.

Q8: Do you have any comments about the online registration & payments system?

Online registration was really easy to complete. There was no payment involved in my case (the specific workshop registration was free of charge).

Q9: Do you have any comments on the conference venue, for example the size and layout of the rooms, how easy it was to get to the venue, acoustics or equipment?

The venue (Europa Room) was amazing, large enough to host all participants, easy to access via train and with plenty of hotel/accommodation options.

Q10: If you were an exhibitor or a demonstrator, do you have any comments on your experiences at the event eg the instructions, the space allocated, the facilities, the wifi, the booth costs, the exhibition and demo hall?

As I mentioned earlier, I have the impression that for those only attending the Friday's workshop (e.g. on the Open Science Cloud), it was not clear if we had to pass through the registration desk and pick up a Conference bag (which I really missed as I collect such memorabilia from Conferences; let alone the precious wifi credentials).

As regards the exhibitor part, even though there was number of tables by the entrance of the Europa room that could be used for this purpose, the tables were allocated by participants working with their laptops. As we were not exhibitors, we have no opinion on the related costs e.g. for booths.

Q11: Compared to similar events that you have attended, do you have any feedback on the fees for the event?

The registration fees	Expensive
Accommodation fees	Acceptable
Travel to the event	Acceptable

Any comment?

I liked the idea of having the Conference at a non-typical place like Bari. Even though this resulted in longer travel times, it was a great opportunity to see a city that I wouldn't have the opportunity otherwise.

Q12: The next EGI event will likely be in Amsterdam in April. Do you have any suggestion for the Programme Committee?

Engage thematic research areas' representatives to express their envisaged use of the EGI infrastructure (e.g. through dedicated sessions); different research communities may have different needs in terms of infrastructure needed.

Q13: Finally, is there any other feedback you would like to give us?

Congratulations for the excellent organization of the event!
