| 3 | Service level targets | 6 |
| 4 | Limitations and constraints | 6 |
| 5 | Violations | 6 |
| 6 | Information security and data protection | 7 |

This Corporate Level operational level agreement (OLA), the Agreement, is valid for all services provided to support business processes according to the current valid service catalogue, if no other agreements are in place. The Agreement may be extended or replaced by specific OLAs.

1 Service hours and exceptions

IT services according to the service catalogue are in general delivered during 24 hours per day, 7 days per week (i.e. 365 days or 8,760 hours), to seamlessly support business operations. Planned and announced interruptions may reduce the effective operating time of a service.

The following exceptions apply:

- Planned maintenance windows or service interruptions (“scheduled downtimes”¹) will be notified via e-mail in a timely manner i.e. 24 hours before the start of the outage², to the Customer through the Broadcast Tool³.
- Downtime periods exceeding 24 hours need justification.
- Human services are provided during support hours.

2 Support

The services covered by the scope of this Agreement are provided with the following level of support.

Support is provided via EGI Service Desk⁴. Access requires a valid X.509 or the login via an EGI SSO account⁵.

Support is available between:

- Monday and Friday
- 9:00 and 17:00 CET/CEST time

This excludes public holidays at the same time in all organizations providing the service.

2.1 Incident handling

Incidents will be handled according to the Quality of Support level that is estimated according to the impact of the outage or service quality degradation.

The Quality of Support levels are defined as follow:

Base level defines a response time of 5 working days regardless of the GGUS ticket priority.

Medium level:

| Incident priority ⁶ | Response time |
|--------------------------------|----------------|
| Less urgent | 5 working days |
| Urgent | 5 working days |
| Very Urgent, | 1 working day |
| Top Priority | 1 working day |

Advanced level:

| Incident priority | Response time |
|-------------------|-----------------|
| Less urgent | 5 working days |
| Urgent | 1 working days |
| Very Urgent, | 1 working day |
| Top Priority | 4 working hours |

Response time is provided as service level target.

2.2 Service requests

In addition to resolving incidents, standard service requests (e.g. change requests, information requests, documentation) will be fulfilled through the defined support channels in the same way as incidents. Service requests are classified as “Less urgent”.

⁶ https://wiki.egi.eu/wiki/FAQ_GGUS-Ticket-Priority

3 Service level targets

Monthly Availability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as a percentage per month): 80%

Monthly Reliability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as a percentage per month): 85%

Quality of Support level

- Medium

4 Limitations and constraints

The provisioning of the service under the agreed service level targets is subject to the following limitations and constraints:

- Support is provided in following language: English
- Downtimes caused due to upgrades for fixing critical security issues are not considered Agreement violations.
- Force Majeure. A party shall not be liable for any failure of or delay in the performance of this Agreement for the period that such failure or delay is due to causes beyond its reasonable control. Means any
 - fire, flood, earthquake or natural phenomena,
 - war, embargo, riot, civil disorder, rebellion, revolutionwhich is beyond the Provider's control, or any other causes beyond the Provider's control

5 Violations

The Service Provider commits to inform the Customer, if this Agreement is violated or violation is anticipated. The following rules are agreed for communication in the event of violation:

- In case of violations of the Services targets for two consecutive months, the Service Provider will provide justifications and a plan for Services enhancement to the Customer. The Component Provider will produce a status report and a Service enhancement plan for the improvement of the Services within one month from the date of the first notification.

- The Customer will notify the supporting Resource Centres in case of suspected violation via the EGI Service Desk. The case will be analysed to identify the cause and verify the violation.

6 Information security and data protection

The following rules for information security and data protection apply:

- Assertion of absolute security in IT systems is impossible. The Component Provider is making every effort to maximize security level of users' data and minimize possible harm in the event of an incident.
- The Component Provider must define and abide by an information security and data protection policy related to the service being provided.
- This must meet all requirements of any relevant EGI policies or procedures⁷ and also must be compliant with the relevant national legislation.
