The present Operational Level Agreement (“the Agreement”) is made between **EGI Foundation (the Customer)** and **INFN-BARI (the Provider)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

The EGI Applications on Demand (AoD)¹ service allows user-friendly access to a portfolio of scientific applications and application hosting frameworks (Science Gateways, VREs) that are configured to use the dedicated pool of cloud computing and HTC clusters from EGI. The service also allows users to run their own simulation/analysis models with custom input data. The service operates as an open and extensible ‘hub’ for providers and e-infrastructure user support teams who wish to federated and share applications and services with individual researchers, or small, fragmented communities, typically referred to as ‘the long tail of science’.

The User is a consortium represented by the **EGI Foundation**.

This Agreement is valid from **01/04/2016 to 01/09/2019**.

Once approved, **this Agreement is automatically renewed**, as long as the Provider does not expressed decision to terminate the Agreement at least a month before end date of the Agreement.

The Agreement was discussed and approved by the Customer and the Provider **30/03/2016**.

The Agreement extends the Resource Center OLA² with following information:

1 The Services

Possible allocation types:

- Pledged - Resources are exclusively reserved to the Community and the job will be executed immediately after submission.
- Opportunistic - Resources are not exclusively allocated, but subject to local availability.
- Time allocation - Resources are available in fair share-like mode for a fixed time period.

Possible payment mode offer:

- Sponsored - Model where the customer uses services that are funded, or co-funded, by the European Commission or government grants.
- Pay-per-use - Model where customer directly pay for the service used.

¹ <https://www.egi.eu/services/applications-on-demand/>

² <https://documents.egi.eu/document/31>

The Services are defined by the following properties:

High-Throughput Compute (category: Compute)

Description: <https://www.egi.eu/services/high-throughput-compute/>

Resource Center: **INFN-BARI (Country: Italy)**

- High-Throughput Compute
 - Guaranteed computing time [HEPSPEC-hours]:
 - Opportunistic computing time [HEPSPEC-hours]: 0.5M
 - Max job duration [hours]: 48
 - Min local storage [GB] (scratch space per each core used by the job):
 - Max number of cores per node:
 - Min physical memory per core [GB]: 2GB
 - Middleware: gLite CREAM CE
 - Other technical requirements: Guarantee the operation of the R Project Statistical Computing (v3.2.2) service in the HTC cluster.
 - Duration: 01/04/2016 – 01/09/2019
 - Payment mode offer: Sponsored
- Allocation type: Pledged
- Supported VOs: vo.access.egi.eu
- VO ID card: <https://operations-portal.in2p3.fr/vo/view/voname/vo.access.egi.eu>

Online Storage (category: Storage)

Description: <https://www.egi.eu/services/online-storage/>

- Resource Centre: **INFN-BARI (Country: Italy)**
 - Online Storage
 - Guaranteed storage capacity [TB]:
 - Opportunistic storage capacity [TB]: 0.1
 - Standard interfaces supported³: POSIX
 - Storage technology⁴:
 - Other technical requirements:
 - Duration: 01/04/2016 – 01/09/2019
 - Payment mode offer: Sponsored
 - Allocation type: Pledged
 - Supported VOs: vo.access.egi.eu
 - VO ID card: <https://operations-portal.in2p3.fr/vo/view/voname/vo.access.egi.eu>

³ CDMI, POSIX, SWIFT, etc.

⁴ DPM, dCache, STORM, etc.

2 Service hours and exceptions

As defined in Resource Center OLA.

3 Support

As defined in Resource Center OLA.

3.1 Incident handling

As defined in Resource Center OLA.

3.2 Service requests

As defined in Resource Center OLA.

4 Service level targets

Monthly Availability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as a percentage per month): 85%

Monthly Reliability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as a percentage per month): 90%

Quality of Support level

- Medium (Section 3)

5 Limitations and constraints

As defined in Resource Center OLA and:

- Availability and Reliability calculations are based on the Service Monitoring operational results.
- Failures in VO monitoring are not considered as the Agreement violations.

6 Communication, reporting and escalation

6.1 General communication

The following contacts will be generally used for communications related to the service in the scope of this Agreement.

EGI Foundation contact	Małgorzata Krakowian sla@mailman.egi.eu SLA Coordinator at EGI Foundation
Provider contact	Giacinto Donvito, giacinto.donvito@ba.infn.it
Service Support contact	See Section 3

6.2 Regular reporting

As defined in Resource Center OLA.

6.3 Violations

As defined in Resource Center OLA.

6.4 Escalation and complaints

As defined in Resource Center OLA.

7 Information security and data protection

As defined in Resource Center OLA.

8 Responsibilities

8.1 Of the Provider

As defined in Resource Center OLA.

8.2 Of the Customer

As defined in Resource Center OLA and:

- Support coordination with other Providers;
- Support coordination and conflict resolution with the User;

8.3 Of the User

- All responsibilities of the User are listed in relevant VO SLA.

9 Review, extensions and termination

As defined in Resource Center OLA.
