PAGE 1

Q1: What was your general impression of the DI4R conference?

Positive

Q2: What was your impression of the DI4R sessions and talks?

Positive,

Any specific comments?

The first part of the session about Community Challenges was not about community challenges. Maybe the presenters were instructed wrong? They did talk about their research projects, but in now way addressed whether they had infrastructure struggles or needs. That was a missed opportunity. The second part of Community Challenges (part II) did address this part better.

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Good, wifi works well, food is good, drinks are nice (also lots of fruit juice to choose from), the drinks and lunch area is spacious enough and it was nice we could go outside and enjoy lunch at stand-up tables as well. I didn't mind the nice walk after the plenary to the parallel sessions, the weather was nice and I enjoyed the bit of fresh air.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

,

I am part of a project team

Q5: What is your primary function?

Outreach and/or user engagement,

Support for research communities

Q6: What was your goal in attending this conference?

Learn about new e-infrastructure services and tools ,

Look for people to collaborate with ,

Find services and solutions to help with my research

,

Other (please specify)

Get to know the people in this vast community

Q7: And what was the outcome of your experience?

Good

Q8: Have you attended any of these meetings before?

TNC - The Networking Conference

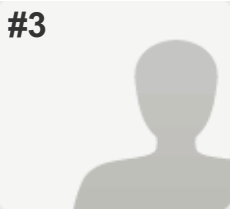

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

Remarks about conference:

- Login process to access administrative part website is very confusing. You cannot login using OpenConext, nor with your email address. You are assigned a username, which you do not know and turns out to be 'first name-space-lastname'.
 - The information that was included in our original session proposal (speakers bio's, remote speaker, session setup, presentation titles) have not been imported into the program, we were asked to provide this information again, multiple times.
 - The session chairs have no means of checking whether their session speakers have uploaded their slides
 - There is no logout button anywhere to switch user or to simply logout of the user website.
 - The slide decks uploaded to the website in the end become visible. This means you cannot upload powerpoint with notes included (which is useful when giving the presentation), because generally you don't want to give this information to attendees. Maybe it is better to give the opportunity to upload slides for giving the presentation and upload a pdf that is visible to all attendees?
 - The website is not compatible with iOS.
 - We were never asked to provide text about our session and presentations for the conference4me app (with a max number of words), also a deadline for providing the text in time was never given. Both I would like to encourage for next time.
-

Q1: What was your general impression of the DI4R conference? Positive

Q2: What was your impression of the DI4R sessions and talks? Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Food was generally very good.

Some of the smaller items at coffee breaks seemed a little stale.

Q4: Which description(s) fits you best? I am part of a project team ,
I am affiliated with one of the organisers ,
If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA)
EGI

Q5: What is your primary function? Software development,
Technical / operations / security

Q6: What was your goal in attending this conference? Learn about new e-infrastructure services and tools ,
Look for people to collaborate with

Q7: And what was the outcome of your experience? Good

Q8: Have you attended any of these meetings before? EGI Conferences and Forums

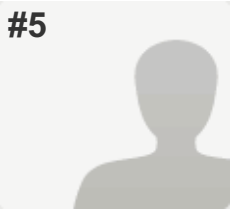

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Well organised.

More options for payment of registration fees beforehand would be useful.

Q1: What was your general impression of the DI4R conference? Positive

Q2: What was your impression of the DI4R sessions and talks? Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

The venue and the city are very nice.

Krakov is however difficult to fly out from later on a Friday; I'm thus travelling home Saturday. Venues with better travel connections would be appreciated to help spend more time with partners/families.

The catering was very good.

Some beer at the reception would have been nice, but plenty of that in the town too :)

The lack of a main hotel (like TNC has) meant it was harder to bump into people socially in the evenings; a large part of this event is about people networking, so helping facilitate that is good.

Q4: Which description(s) fits you best? I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function? Support for research communities

Q6: What was your goal in attending this conference? Present my work / my project / my software tools ,
Learn about new e-infrastructure services and tools ,
Discuss emerging policy and strategy trends ,
Look for people to collaborate with ,
Other (please specify)
Understand researcher requirements

Q7: And what was the outcome of your experience? Good

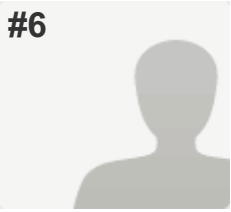

Q8: Have you attended any of these meetings before? TNC - The Networking Conference

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

Overall, very good for a first run of the event.

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Catering was excellent, both in quantity, quality and organization.

The conference venues were both well selected; however, it would be better served if there was a single venue for all sessions rather than two different buildings (with some distance between them).

Q4: Which description(s) fits you best?

I work as a researcher ,

I work as part of a Research Infrastructure / Research Community

,

I am part of a project team

Q5: What is your primary function?

Research, Software development

Q6: What was your goal in attending this conference?

Present my work / my project / my software tools ,

Discuss emerging policy and strategy trends ,

Look for people to collaborate with ,

Find services and solutions to help with my research

Q7: And what was the outcome of your experience?

Very good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums , RDA Assemblies

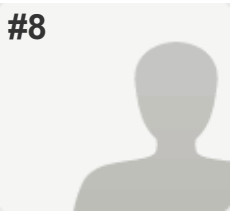

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

The overall experience was very engaging. A useful addition in my mind though would be to include discipline-specific training session. There were training sessions in the DI4R program but there were either largely generic or aiming towards other e-infrastructures/ICT people. In order to attract "less involved" research communities, I would include very focused and specific training sessions, ideally with the collaboration of more than one e-infrastructure, attempting to answer the researchers' question "how can I use this in my daily work".

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? Would appreciate more participation from the end user research and education communities, to present use cases and requirements.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
Food was good decent coffee available Bottled water available	
Q4: Which description(s) fits you best?	I am affiliated with one of the organisers , If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA) GÉANT
Q5: What is your primary function?	Outreach and/or user engagement
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Discuss emerging policy and strategy trends, Look for people to collaborate with
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	EUDAT Meetings, TNC - The Networking Conference, RDA Assemblies
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential

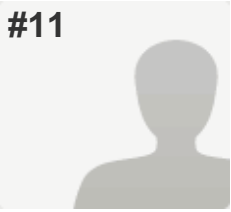

Q10: Would you like to leave us any other thoughts, comments, feedback?

The website digitalinfrastructures.eu has serious problems:

- doesn't work on mobile platforms (layout collapses, no links work)
- weak user account system for session/speaker admin

The session information available in the official Conf4Me app is very incomplete and old, does not update with cons Programme changes. Makes it nearly useless for choosing sessions to attend.

TNC - The Networking Conference

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

The bus transport from venue 1 to venue 2 was useless and not well organized. On day 2 only one of four buses was used and it left way to late (some people waited for 20mins and then got off because the bus did not leave). However, a bus to the conference dinner would have been appreciated.

Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential
Q10: Would you like to leave us any other thoughts, comments, feedback?	Each speaker should really make it clear which organization they work with, where- a specific country or an eu collaboration, the aim,etc The researchers were not represented at all or not in an obvious way. Perhaps the users should be invited to present their experience and challenges

Q1: What was your general impression of the DI4R conference?	Very positive
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? too plenary/1-way communication; too little space/time for comments and questions, timing really needs to be kept far stricter
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	great! :D
Q4: Which description(s) fits you best?	I work as part of a Research Infrastructure / Research Community
Q5: What is your primary function?	Strategy and policy
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Discuss emerging policy and strategy trends , Look for people to collaborate with
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential
Q10: Would you like to leave us any other thoughts, comments, feedback?	organize it more like a un-conference; networking, workshops, hacking, discussing, writing together etc. getting shit done basically ;) now too many 'promotional talks'

Q1: What was your general impression of the DI4R conference? Positive

Q2: What was your impression of the DI4R sessions and talks? Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Catering: in general very good. However, there were few low-sugar and low-sodium alternatives. In these days, one should not have to ask for special dietary food to have access to healthy alternatives! (This especially applies to coffee breaks...)

Rooms: OK, but they were quite dark (needed to switch off ceiling lights to properly see projected slides), and it was often very difficult to hear audience questions in the classrooms where no microphones were available. Also, doors were slamming shut and chairs scraping the floors.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community
,

I am part of a project team ,

I am affiliated with one of the organisers ,

If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA)
eudat and rda

Q5: What is your primary function? Management,
Other (please specify) data scientist

Q6: What was your goal in attending this conference? Present my work / my project / my software tools ,
Learn about new e-infrastructure services and tools

Q7: And what was the outcome of your experience? Good

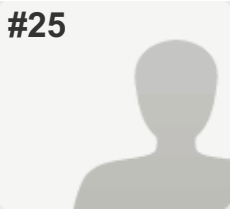

Q8: Have you attended any of these meetings before? EGI Conferences and Forums , EUDAT Meetings,
RDA Assemblies

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Would have been nice to have a more organized poster session, with all poster owners present at the same time. Now it was difficult to hunt down people to set up face to face discussions!

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Very positive,

Any specific comments?

There is an incredibly well-balanced programme.

Extremely rich, yes, but definitely fruitful for anyone working in the e-infrastructure space.

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Fantastic, no further comment.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function?

Technical / operations / security

Q6: What was your goal in attending this conference?

Present my work / my project / my software tools ,

Learn about new e-infrastructure services and tools

Q7: And what was the outcome of your experience?

Very good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

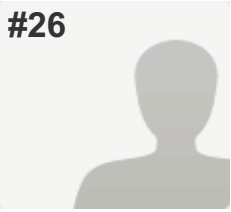

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Please do not have this be a once-off event. I think that this can neither replace the individual EUDAT/EGI/PRACE etc community conferences, but there is a very special quality to having all of the e-Infras in one place. the message to research communities is becoming very clear and attractive.

I particularly enjoyed the "Design your e-Infrastructure" workshop before the conference and I think it should be permanently associated to this kind of event.

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? First time in this kind of conference, I found there were lots of political level talks to show the EC that the project are well behaved with all the buzz words. Not really convinced by the plenary session (mostly choice of talks).
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
Very well organised, plenty of food choice and good quality.	
Q4: Which description(s) fits you best?	I work as a researcher, I work as part of a Research Infrastructure / Research Community
Q5: What is your primary function?	Research, Management
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Other (please specify) Understand the ecosystem of EU funded projects ;-)
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial

PAGE 1

Q1: What was your general impression of the DI4R conference?

Positive

Q2: What was your impression of the DI4R sessions and talks?

Average,

Any specific comments?

Mixed. Lots of stuff, some of it still targeted at relatively closed communities (which we probably can't avoid really). Some were really good. Some were less than expected, given relatively high profile of attendees. I'd put more effort still in picturing - in very simple understandable way - the opportunities for synergies based on understanding similarities and differences (strengths & weaknesses) of various infrastructures/organizations/communities, rather than just presenting ourselves in a classical way. Panels were in my opinion a good example of that, stressing the importance of a good chair.

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Absolutely :)

Never again should you bring hundreds of geeks to a brewery, full of beer taps and beer festival posters, and serve no beer! Besides, Poland has a good tradition in beer brewing and the audience of this conf usually likes to try local stuff! Very trivial faux pas, but you know it will persist in minds of simple "conference users", which we all are...

Apart from that, the venue and catering there very ok. A bit of walking doesn't hurt (unless it rains, that is ;)

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function?

Strategy and policy,

Outreach and/or user engagement,

Communications and/or events

Q6: What was your goal in attending this conference?

Learn about new e-infrastructure services and tools ,

Discuss emerging policy and strategy trends ,

Other (please specify)

see how parallel words could intertwine and work together

Q7: And what was the outcome of your experience?

OK

Q8: Have you attended any of these meetings before? TNC - The Networking Conference

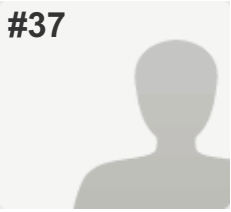

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Keep bringing parallel worlds to the same (beer) table! Nothing helps better to understand differences and opportunities than getting people to meet live, whatever our marveling at communications tech may be :)

Watch out for the disclaimer on "9.": "essential" doesn't mean we could _replace_ separate conferences with one joint, at least not forcibly or in any near future.

Very well organised, though as a representative of a user community, a shame to see such a strong disconnect between technical people and the users they support.

Q1: What was your general impression of the DI4R conference? Positive

Q2: What was your impression of the DI4R sessions and talks? Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

The catering was OK.

Some of the meeting rooms were small with people having to stand-up for some sessions.

Q4: Which description(s) fits you best? I work as part of a Research Infrastructure / Research Community
,
I am part of a project team

Q5: What is your primary function? Management

Q6: What was your goal in attending this conference? *Respondent skipped this question*

Q7: And what was the outcome of your experience? Good

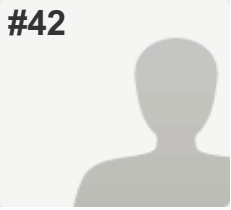

Q8: Have you attended any of these meetings before? EGI Conferences and Forums ,
TNC - The Networking Conference, RDA Assemblies

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

impose strict limits on time for presentations so that more time is available for discussion

Q1: What was your general impression of the DI4R conference?

Positive

Q2: What was your impression of the DI4R sessions and talks?

Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Was good.

Q4: Which description(s) fits you best?

I am affiliated with one of the organisers ,
If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA)
EGI

Q5: What is your primary function?

Management

Q6: What was your goal in attending this conference?

Other (please specify)
Facilitate collaboration with RIs, among e-Infras

Q7: And what was the outcome of your experience?

Good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums , EUDAT Meetings

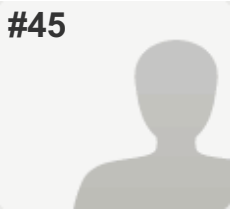

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Keep DI4R going on
Invite/involve RIs

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Positive,

Any specific comments?

Sessions the right length - and clearly attempts had been made to include panels...which was good. Also in a couple of sessions there were online live question polls - this was excellent.

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

venue excellent. Venue 1 and 2 too far apart. Nice to use an academic venue.

Q4: Which description(s) fits you best?

I am affiliated with one of the organisers

Q5: What is your primary function?

Outreach and/or user engagement

Q6: What was your goal in attending this conference?

Look for people to collaborate with

Q7: And what was the outcome of your experience?

Very good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums ,

TNC - The Networking Conference

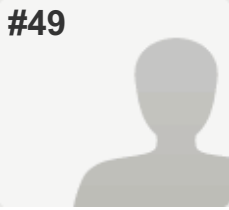

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

A shorter 2 day conference would be better - 3 was too long. Too many parallel sessions overall. Training sessions were useful. More demos and booths to make it more interactive. Would suggest co-location of e-infra events with DI4R e.g. 1 day or 1.5 days of DI4R only then more e-infra focused event so that relevant constituencies can get together.

PAGE 1

Q1: What was your general impression of the DI4R conference?	Very positive
Q2: What was your impression of the DI4R sessions and talks?	Positive, Any specific comments? A bit too "high level", too descriptive : I would have liked to see more how things actually works, how to do things and how researchers have to interact with existing e-infrastructures. I was also a pity to not have more researchers present during this conference. I know how difficult it is to reach them, but maybe it can be achieved by contacting universities and invite them to send research department representatives, professors and research team leaders.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
Globally : Really good ! Maybe adding more tables to eat (was quite crowded) and having more power outlet in conference rooms.	
Q4: Which description(s) fits you best?	I work as part of a Research Infrastructure / Research Community , If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA) EGI (site administrator)
Q5: What is your primary function?	Technical / operations / security
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Discuss emerging policy and strategy trends
Q7: And what was the outcome of your experience?	Very good
Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential

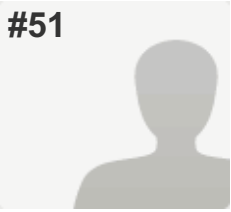

Q10: Would you like to leave us any other thoughts, comments, feedback?

I was aware of this event only by chance (through my EGI local representative). I think universities might be a good way to reach people.

Thanks again, it was really a pleasure to meet all different actors who make things happening. Only working together will lead us doing better things.

Kind regards.

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

In the past EGI conferences there was always a talk during the first day plenary (by Tiziana Ferrari) that presented the progress and efforts in running projects and also introduced the goal of the conference to help participants focus on what to expect from the sessions. This type of talk was missing at DI4R and many people were a bit lost. When multiple parties organize a conference, it is even more important to give an overview of the undergoing projects and clarity on the purpose of getting together.

On another note, the 2 venues in different locations was a bit inconvenient choice. Also the organizers should have informed us that there is always a huge traffic jam on Friday afternoon on the way to the airport (according to the taxi driver) to plan accordingly. We almost lost our flight.. These are useful details.

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

the catering and the venues were great, although it was a bit odd having the plenaries and the body of the conference in two quite different places. Great rooms though.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function?

Management, Strategy and policy

Q6: What was your goal in attending this conference?

Look for people to collaborate with ,
Discuss emerging policy and strategy trends ,
Learn about new e-infrastructure services and tools ,
Present my work / my project / my software tools

Q7: And what was the outcome of your experience?

Very good

Q8: Have you attended any of these meetings before?

No

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

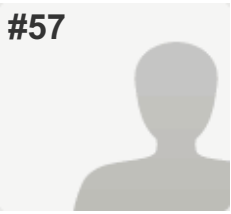

It was a very interesting and useful conference for me, and shed a lot of light on the current EU scene. It was interesting that there do seem to be a lot of projects doing similar things (clouds and VRE's in particular) which is perhaps not surprising, but interesting in the context of there not being a great many actual users present to be drawn into using them.

Perhaps next time it would be useful to have a 'users day' focussed purely on hearing user stories, everyone seems to think they have the right answer for these big picture problems like data provenance, metadata, identity, networks, storage, & compute, but there wasn't much input from the actual user groups themselves.

Can the DI4R group survey users to provide some baseline info which projects could use to inform themselves?

Was a great conference, I think you've got exactly the same challenges we have in Australia, but perhaps we're going to be attacking them in different ways, it will be very interesting to see how the environments develop!

Q2: What was your impression of the DI4R sessions and talks?	Positive
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
Catering was really good.	
The geographical split between plenary session and parallel sessions was not optimal. Offering a bus transfer was ok, but not that useful as they waited endlessly until they started. In the end I took a walk.	
One minor thing: I missed the beer at the gala dinner.;-)

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Positive
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
Catering was good. The split over two venues was a bit of a hassle but I can understand it is not easy to accommodate such a big group.	
Q4: Which description(s) fits you best?	I work as part of a Research Infrastructure / Research Community , I am part of a project team , I am affiliated with one of the organisers
Q5: What is your primary function?	Software development, Technical / operations / security
Q6: What was your goal in attending this conference?	Present my work / my project / my software tools , Discuss emerging policy and strategy trends , Look for people to collaborate with
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	EUDAT Meetings
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial
Q10: Would you like to leave us any other thoughts, comments, feedback?	<i>Respondent skipped this question</i>

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Positive, Any specific comments? - sessions of 1.5 hour too long. Sessions of 1 hour and then possibility to switch between parallel sessions works better I thinks. - panel discussion in plenary did not work, better to do panel discussions in smaller settings - it was a pity that the overview of European initiatives was at 7:00 PM. I think it's better to start the congress with such an overview.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	very good!
Q4: Which description(s) fits you best?	I am part of a project team
Q5: What is your primary function?	Outreach and/or user engagement
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Discuss emerging policy and strategy trends
Q7: And what was the outcome of your experience?	OK
Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential
Q10: Would you like to leave us any other thoughts, comments, feedback?	I prefer a two-day conference, e.g. Thursday-Friday.

PAGE 1

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? Some sessions was esoteric and too technical despite the promise of "researcher" audience. Lack user cases from humanities and social sciences and qualitative data handling i.e. video-based data.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
To much food - and food waste (especially cake during each break) which can easliy be limited in the future (or more healthy, smaller, sustainable options).	
Q4: Which description(s) fits you best?	I work as a researcher, I am part of a project team
Q5: What is your primary function?	Research, Communications and/or events
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Look for people to collaborate with , Find services and solutions to help with my research
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	No
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial
Q10: Would you like to leave us any other thoughts, comments, feedback?	
Some presentations had a "audiance" descriptions, which made it easier to navigate and find sessions to follow, but others lacked this description - and it seems like the user/researcher-perspective was forgot in some of the sessions, which ended up very technical and/or esoteric.

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Positive, Any specific comments? It would be good to have more time for discussions - e.g. break-out groups, more panel discussions and less long presentations, perhaps. And it would be good to ensure more interactions between different research infrastructures users (during the sessions).
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	Excellent
Q4: Which description(s) fits you best?	I am affiliated with one of the organisers
Q5: What is your primary function?	Management, Strategy and policy, Outreach and/or user engagement, Communications and/or events, Support for research communities
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Discuss emerging policy and strategy trends, Look for people to collaborate with
Q7: And what was the outcome of your experience?	Very good
Q8: Have you attended any of these meetings before?	OpenAIRE meetings, RDA Assemblies

Q8: Have you attended any of these meetings before?	EGI Conferences and Forums , TNC - The Networking Conference, RDA Assemblies
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

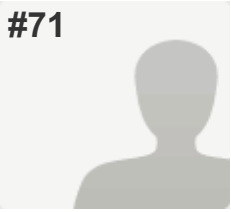

As a speaker I found the conference system rather inconvenient to use.

Technical emails from the system were not clearly linked to di4r and looked like spam or phishing mail.

Example:

"Subject: Replacement login information for [me] at <none>"

Q1: What was your general impression of the DI4R conference?

Average

Q2: What was your impression of the DI4R sessions and talks?

Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

No enough space to seat.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function?

Management, Technical / operations / security

Q6: What was your goal in attending this conference?

Learn about new e-infrastructure services and tools ,
Discuss emerging policy and strategy trends,
Look for people to collaborate with

Q7: And what was the outcome of your experience?

OK

Q8: Have you attended any of these meetings before?

EUDAT Meetings, RDA Assemblies

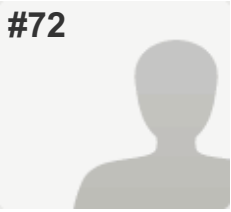

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

Improve the technical level of sessions. Some of them seemed only to fill the timetable.

Q1: What was your general impression of the DI4R conference?	Average
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? A good first attempt at bringing together the European e-infrastructure providers. There was huge variety in the quality of the talks, this should be fixed for the next event. Also, keep in mind that getting end-users to visit this event is nigh impossible, therefore shift the focus to intermediaries: representatives of the NGIs & NRENs and those of RIs. Furthermore, it would be nice to hear more about the strategy and vision of the EU infra providers, show us where the infra and communities are going so we can prepare for it and contribute.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	Catering was good, I especially liked the continuous supply of coffee and water.
Q4: Which description(s) fits you best?	I work as part of a Research Infrastructure / Research Community , I am affiliated with one of the organisers , If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA) EGI & EUDAT
Q5: What is your primary function?	Outreach and/or user engagement
Q6: What was your goal in attending this conference?	Present my work / my project / my software tools , Learn about new e-infrastructure services and tools , Look for people to collaborate with
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	EGI Conferences and Forums

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

Having organised a session during this event I was quite disappointed with the mistakes made in the program (different start times for the sessions on the paper hands-outs and online). This is definitely one to get right next time. Another annoyance was the incessant barrage of request to upload the slides of the session participants. As the website was, pardon my French, crap, this was something of a hassle for me and the session speakers. Later it turned out it didn't help during the session itself as the presentation laptops provided did not contain a full PowerPoint install and we needed to use my own laptop anyway. Responsibility for getting the slides on time should lie with the session organisers.

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Very positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

It was great! Nothing to complain!

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

Q5: What is your primary function?

Management, Strategy and policy,
Outreach and/or user engagement,
Support for research communities

Q6: What was your goal in attending this conference?

Look for people to collaborate with ,
Discuss emerging policy and strategy trends ,
Learn about new e-infrastructure services and tools ,
Present my work / my project / my software tools

Q7: And what was the outcome of your experience?

Good

Q8: Have you attended any of these meetings before?

EUDAT Meetings, RDA Assemblies

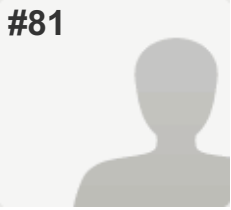

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

It was a great and well organized conference. I got a lot of new input and met many interesting people. I enjoyed my stay at AGH and also in Cracow very much.

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Catering was excellent, the conference venues well organised.

Q4: Which description(s) fits you best?

I work as part of a Research Infrastructure / Research Community

,

I am part of a project team ,

I work for a funding agency / governance institution

Q5: What is your primary function?

Support for research communities

Q6: What was your goal in attending this conference?

Present my work / my project / my software tools ,

Learn about new e-infrastructure services and tools ,

Discuss emerging policy and strategy trends ,

Look for people to collaborate with

Q7: And what was the outcome of your experience?

Very good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums , EUDAT Meetings ,

OpenAIRE meetings

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

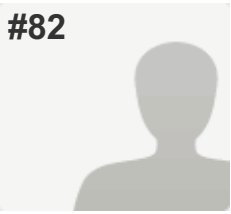

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

I am looking for the posters in the web site as I didn't have time to see them, but it seems that the list is not complete and the posters aren't available, could you do something to improve the posters dissemination?

Otherwise it will be nice for next conferences to have a more coherent and coordinated program. There are obviously points to improve but it was a very good conference.

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Positive,

Any specific comments?

I enjoyed as a 'newcomer' listening to different types of presentations and getting to know people in the e-infrastructure community.

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

As a vegan, I was happy that there was a good choice of non-meat options. Thank you !

Q4: Which description(s) fits you best?

I am part of a project team

Q5: What is your primary function?

Management, Strategy and policy

Q6: What was your goal in attending this conference?

Look for people to collaborate with ,

Discuss emerging policy and strategy trends ,

Learn about new e-infrastructure services and tools ,

Present my work / my project / my software tools

Q7: And what was the outcome of your experience?

Good

Q8: Have you attended any of these meetings before?

No

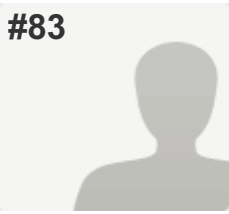

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Essential

Q10: Would you like to leave us any other thoughts, comments, feedback?

I would just like to thank the local organisers, perfect organisation and Krakow and the university buildings were a perfect location.

Q1: What was your general impression of the DI4R conference?	Positive
Q2: What was your impression of the DI4R sessions and talks?	Positive
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	
- a lot! is this all needed?	
-def a plus that the beverages stayed in between the sessions	
- no labelling for nut allergies (but why separate table for gluten free? afai gluten intolerance is not lifethreatening) - a simple card on each dish what it contains would be helpful	
Q4: Which description(s) fits you best?	If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA) GEANT
Q5: What is your primary function?	Outreach and/or user engagement
Q6: What was your goal in attending this conference?	Present my work / my project / my software tools , Look for people to collaborate with , Other (please specify) Catch Up with people I already work/collaborate with
Q7: And what was the outcome of your experience?	OK
Q8: Have you attended any of these meetings before?	EGI Conferences and Forums , EUDAT Meetings, TNC - The Networking Conference
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Essential
Q10: Would you like to leave us any other thoughts, comments, feedback?	<i>Respondent skipped this question</i>

Q1: What was your general impression of the DI4R conference? Positive

Q2: What was your impression of the DI4R sessions and talks? Positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

Some of the interesting presentations were located in inadequate rooms (so few places for the audience). Catering was good.

Q4: Which description(s) fits you best? I am part of a project team ,
I work as part of a Research Infrastructure / Research Community
,
I work as a researcher

Q5: What is your primary function? Support for research communities,
Outreach and/or user engagement, Research

Q6: What was your goal in attending this conference? Learn about new e-infrastructure services and tools ,
Look for people to collaborate with ,
Other (please specify)
Meeting with my Account contacts within GN4.

Q7: And what was the outcome of your experience? Good

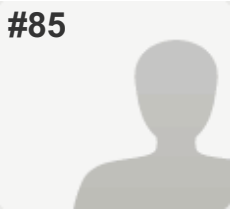

Q8: Have you attended any of these meetings before? TNC - The Networking Conference

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference? Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

In my opinion it was too much EGI-oriented conference.

Q1: What was your general impression of the DI4R conference?	Average
Q2: What was your impression of the DI4R sessions and talks?	Average, Any specific comments? It was sometimes difficult to tell what audience things were pitched at and the sessions didn't always have a strong theme joining up papers. I think more focus on discussion between einfrastructure providers about how they overlap and could potentially collaborate would have been more useful.
Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?	Venue and catering was good although wifi was a bit intermittent at times
Q4: Which description(s) fits you best?	I am part of a project team
Q5: What is your primary function?	Support for research communities
Q6: What was your goal in attending this conference?	Learn about new e-infrastructure services and tools , Look for people to collaborate with
Q7: And what was the outcome of your experience?	Good
Q8: Have you attended any of these meetings before?	EUDAT Meetings, OpenAIRE meetings, RDA Assemblies
Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?	Beneficial
Q10: Would you like to leave us any other thoughts, comments, feedback?	Focus more on the join up between infrastructures and invite sessions that are more discursive or panel based rather than just talking at people.

Q1: What was your general impression of the DI4R conference?

Very positive

Q2: What was your impression of the DI4R sessions and talks?

Very positive

Q3: Please tell us what you thought about the catering and conference venues. Any feedback to help us plan better next time?

The catering was excellent, especially at the conference venue, both in terms of quality and availability.

I appreciate that there was plenty of water, coffee, and bottles of water we could take into the sessions.

Q4: Which description(s) fits you best?

I am affiliated with one of the organisers ,
If you are affiliated with one of the organisers, which one? (EGI, EUDAT, GÉANT, OpenAIRE, RDA)
EGI

Q5: What is your primary function?

Technical / operations / security

Q6: What was your goal in attending this conference?

Present my work / my project / my software tools ,
Look for people to collaborate with ,
Discuss emerging policy and strategy trends,
Learn about new e-infrastructure services and tools

Q7: And what was the outcome of your experience?

Good

Q8: Have you attended any of these meetings before?

EGI Conferences and Forums

Q9: Did you find a benefit to having all e-infrastructures represented in one joint conference?

Beneficial

Q10: Would you like to leave us any other thoughts, comments, feedback?

Good venue, good location, and lots of useful meetings and discussions
