TERMINOLOGY

The EGI glossary of terms is available at: https://wiki.egi.eu/wiki/Glossary

For the purpose of this Agreement, the following terms and definitions apply. The key words "MUST", "MUST NOT", "REQUIRED", "SHALL", "SHALL NOT", "SHOULD", "SHOULD NOT", "RECOMMENDED", "MAY", and "OPTIONAL" in this document are to be interpreted as described in RFC 2119.

Contents

The present Service Level Agreement ("the Agreement') is made between **EGI Foundation (the Provider)** and **The French National Center for Scientific Research (CNRS)/biomed (the Customer)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

The "Life-Science community" covers notably the following scientific domains: bioinformatics, genomics, bio-banking, medical imaging, (statistical) analysis and systems biology (e.g., virtual physiological human). It covers research groups from Universities, research centers and industry, IT actors developing tools for Life Sciences, hospitals and ESFRIs. The goal of the VRC is to serve the European Life Sciences community in its exploitation of the grid.

The User is a consortium represented by the **French National Center for Scientific Research (CNRS).**

This Agreement is valid from **01/05/2016** to **01/01/2018**.

The Agreement was discussed and approved by the Customer and the Provider on **16/09/2016.**

1 The Services

Possible access types:

- Pledged - Resources are exclusively reserved to the Community and the job will be executed immediately after submission
- Opportunistic - Resources are not exclusively allocated, but subject to local availability
- Time allocation - Resources are available in fair share-like mode for a fixed time period.

The Services are defined by the following properties:

High-Throughput Compute (category: Compute) and Online Storage (category: Storage)

With High-Throughput Compute you can run computational jobs at scale on the EGI infrastructure. It allows you to analyse large datasets and execute thousands of parallel computing tasks. High-Throughput Compute is provided by a distributed network of computing centres, accessible via a standard interface and membership of a virtual organisation. EGI offers more than 650,000 cores of installed capacity, supporting about 1.6 million computing jobs per day. This service supports research and innovation at all scales: from individuals to large collaborations.

Online Storage allows you to store data in a reliable and high-quality environment and share it across distributed teams. Your data can be accessed through different standard protocols and can be replicated across different providers to increase fault-tolerance. Online Storage gives you complete control over the data you share and with whom.

- **Resource Centre: IN2P3-IRES [Country: France]**
  - High-Throughput Compute
    - Guaranteed computing time [HEPSPEC-hours]:
    - Opportunistic computing time [HEPSPEC-hours]: 10 Million per year
    - Max job duration [hours]: 48
    - Min local storage [GB] (scratch space per each core used by the job): 20GB
    - Min physical memory per core [GB]: 2GB
    - Middleware: UMD3
    - Other technical requirements: No
    - Duration: 01/05/2016 – 01/01/2018
  - Online Storage
    - Opportunistic storage capacity [TB]: 10TB
    - Other technical requirements: No
    - Duration: 01/05/2016 – 01/01/2018
  - Access type: Opportunistic
  - Supported VOs: biomed

  - o Access type: Opportunistic
  - o Supported VOs: biomed

The Services are supported by additional services:

- Accounting[1]
- Service Monitoring[2] (operational only)

Note: Please note that following services are not provided by EGI Foundation:

- Monitoring of biomed
- Monitoring of services provided by the Customer on agreed resources

---

[1] http://accounting.egi.eu/
[2] http://argo.egi.eu/

2 Service hours and exceptions

The Services operate during the following hours: twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days a year.

The following exceptions apply:

- Planned maintenance windows or service interruptions ("scheduled downtimes"[3]) will be notified via e-mail in a timely manner i.e. 24 hours before the start of the outage[4].
- Downtime periods exceeding 24 hours need justification.

3 Support

Support is provided via EGI Service Desk[5]. Access requires a valid X.509 or the login via a EGI SSO account[6]. Support is available between:

- Monday to Friday.
- From 9:00 to 17:00 in the time zone of the relevant Resource Centres.

Service times always apply with the exception of public holidays in the country of the supporting Resource Centres.

3.1 Incident handling

Incidents will be handled according to the Quality of Support level that is estimated according to the impact of the outage or service quality degradation.

The Quality of Support in this Agreement has level: **Medium[7]**

Incident priority	Response time
Less urgent	5 working days
Urgent	5 working days
Very Urgent,	1 working day
Top Priority	1 working day

so the incidents, based on their priority will be responded to with the following response times:

---

[3] https://wiki.egi.eu/wiki/GOCDB/Input_System_User_Documentation#Downtimes
[4] http://goc.egi.eu/
[5] http://helpdesk.egi.eu/
[6] https://www.egi.eu/sso/
[7] https://wiki.egi.eu/wiki/FAQ_GGUS-QoS-Levels

Incident priority[8]	Response time	Comment
Less urgent	5 working days	wishes and enhancements that are "nice to have"
Urgent	5 working days	service degraded; work-around available
Very Urgent	1 working day	service degraded; no work-around available
Top Priority	1 working day	service interrupted; needs to be addressed as soon as possible

Table 1. Response times to incidents according to the incident priority of "Medium" services

3.2 Service requests

In addition to resolving incidents, standard service requests (e.g. change requests, information requests, documentation) will be fulfilled through the defined support channels in the same way as incidents. Service requests are classified as "Less urgent".

4 Service level targets

Monthly Availability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as a percentage per month):
  - o IN2P3-IRES: 85%
  - o OBSPM: 85%
  - o IFCA-LCG2: 85%
  - o INFN-FERRARA: 85%
  - o GARR-01-DIR: 85%
  - o INFN-CATANIA: 85%
  - o INFN-ROMA3: 85%
  - o INFN-BARI: 85%
  - o NCG-INGRID-PT: 85%
  - o INFN-PISA: 85%
  - o BEIJING-LCG2: 85%

Monthly Reliability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as a percentage per month):
  - o IN2P3-IRES: 90%

---

[8] https://wiki.egi.eu/wiki/FAQ_GGUS-Ticket-Priority

- o OBSPM: 90%
- o IFCA-LCG2: 90%
- o INFN-FERRARA: 90%
- o GARR-01-DIR: 90%
- o INFN-CATANIA: 90%
- o INFN-ROMA3: 90%
- o INFN-BARI: 90%
- o NCG-INGRID-PT: 90%
- o INFN-PISA: 90%
- o BEIJING-LCG2: 90%

Quality of Support level

- • Medium (Section 3)

5 Limitations and constraints

The Services provisioning is subject to the following limitations and constraints.

- • Support is provided in English.
- • Availability and Reliability calculations are based on the Service Monitoring operational results.
- • Failures in VO monitoring are not considered as SLA violations.
- • Downtimes needed to ensure the security of the Service issues are not considered Agreement violations.
- • Failures of resource provider not being part of EGI production infrastructure are not considered as Agreement violations.

- • Force Majeure. A party shall not be liable for any failure of or delay in the performance of this Agreement for the period that such failure or delay is due to causes beyond its reasonable control. Means any
  - o fire, flood, earthquake or natural phenomena,
  - o war, embargo, riot, civil disorder, rebellion, revolution
  which is beyond the Provider's control, or any other causes beyond the Provider's control

6 Communication, reporting and escalation

6.1 General communication

The following contacts will be generally used for communications related to the service in the scope of this Agreement.

Customer contact	Johan Montagnat Johan.montagnat@cnrs.fr
EGI Foundation contact	Małgorzata Krakowian sla@mailman.egi.eu SLA Coordinator at EGI Foundation
Service Support contact	See Section 3

6.2 Regular reporting

As part of the fulfilment of this Agreement and provisioning of the service, the following reports will be provided:

Report title	Contents	Frequency	Produced by	Delivery
Services Performance Report	The document provides the overall assessment of service performance (per month) and SLA target performance achieved during last 6 months	Every six months	Provider	Email to the Customer
Scientific Publications report	The document provides list of scientific publications benefiting from the Service.	Yearly and with the Agreement ending.	Customer	Email to the Provider

All reports shall follow predefined templates[9].

---

[9] https://documents.egi.eu/document/2748

6.3 Violations

The Provider commits to inform the Customer, if this Agreement is violated or violation is anticipated. The following rules are agreed for communication in the event of violation:

- In case of violations of the Services targets for two consecutive months, the Provider will provide justifications and a plan for Services enhancement to the Customer. The Provider will produce a status report and a Service enhancement plan for the improvement of the Services within one month from the date of the first notification.
- The Customer will notify the supporting Resource Centres in case of suspected violation via the EGI Service Desk (Section 3). The case will be analysed to identify the cause and verify the violation.

6.4 Escalation and complaints

For escalation and complaints, the Provider contact (section 6.1) point shall be used, and the following rules apply.

- In case of repeated violation of the Services targets for four consecutive months, a review of the Agreement and of the Services enhancement plan will take place involving the parties of the Agreement.
- Complaints or concerns about the Services provided should be directed to the Provider contact who will promptly address these concerns. Should the Customer still feel dissatisfied, about either the result of the response or the behaviour of the supporting Resource Centres, EGI Foundation Director director@egi.eu should be informed.

7 Information security and data protection

The following rules for information security and data protection related to the Service apply.

- Assertion of absolute security in IT systems is impossible. The Provider is making every effort to maximize security level of users' data and minimalize possible harm in the event of an incident.
- The Provider will define and abide by an information security and data protection policy related to the service being provided.
- The parties of the Agreement will meet all requirements of any relevant policy or procedure of the Provider[10] and will comply with the applicable national legislations.

---

[10] https://www.egi.eu/about/policy/policies_procedures.html

8 Responsibilities

8.1 Of the Provider

Additional responsibilities of the Provider are as follows.

- The Provider adheres to all applicable operational and security policies and procedures[11] and to other policy documents referenced therein.
- The Provider allows monitoring of the Service in order to measure the fulfilment of the agreed service level targets.
- The Provider retains the right to introduce changes in how the Service is provided, in which case the Provider will promptly inform the Customer and update the Agreement accordingly.

8.2 Of the Customer

The responsibilities of the Customer are:

- The Customer commits to acknowledge EGI in the scientific publications benefiting from the Service: "This work used the EGI infrastructure with the support of IN2P3-IRES, OBSPM, IFCA-LCG2, INFN-FERRARA, GARR-01-DIR, INFN-CATANIA, INFN-ROMA3, INFN-BARI, NCG-INGRID-PT, INFN-PISA and BEIJING-LCG2".
- The Customer will provide during Agreement review (yearly) list of scientific publications benefiting from the Service.
- The Customer must not share access credentials with anyone else.
- The data stored in the system by the Customer must not cause any legal violation due to the content type (such as copyright infringement, dual use, illegal material).
- The use must be consistent with the Acceptable Use Policy[12] of the Service.
- The Customer will notify the Provider in case the actual amount of the Service used results in being under- or over-estimated. The Customer will request an update of the Agreement to ensure optimal usage of the Service.
- The Customer will create one or more Virtual Organizations (VOs) to define the group of users entitled to access the Service. Information about the VO will be regularly updated in EGI Operations Portal[13].
- The Customer must request EGI Service Desk support[14] to enable assigning tickets with appropriate VO name.

[12] https://documents.egi.eu/document/74
[13] http://operations-portal.egi.eu/
[14] https://wiki.egi.eu/wiki/FAQ_GGUS-New-Support-Unit

- When applicable, the Customer is responsible of ensuring that the Virtual Machine images endorsed and listed in the AppDB[15] VO image list are properly maintained and updated.

9 Review, extensions and termination

The Services performance will be reviewed against the defined Service level targets according to Section 4. The Agreement will be annually reviewed until expiration.

If the Customer wishes to extend the duration after the Agreement termination date, an extension will be negotiated with the Provider.

The Provider retains the right to introduce changes in the Service, in which case the Customer retains the right of terminating the Agreement.

The Agreement can be terminated at any time upon agreement of the parties. Amendments, comments and suggestions must be addressed to the Provider and the Customer according to Section 6.
