The present Operational Level Agreement (“the Agreement”) is made between **EGI Foundation (the Customer)** and **INFN-PADOVA (the Provider)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

The European project EMSODEV¹ will make it easier to analyse the effects of climate change and pollution in seafloor ecosystems thanks to the optimization of the data flow acquired by marine observatories. The project, funded under Horizon 2020, is conducted by ten European countries under the coordination of the Italian National Institute of Geophysics and Volcanology (INGV).

The User is a consortium represented by the partners of the EMSODEV project (INGV is the coordinator of the project).

This Agreement is valid from **01/09/2016** to **31/12/2017**.

The Agreement was discussed and approved by the Customer and the Provider **04/10/2016**.

The Agreement extends the Resource Center OLA² with following information:
