DOCUMENT LOG

Issue	Date	Comment	Author
v1	2020-12-17	First version of the OLA, covering EGI ACE from	Enol Fernandez,
		Jan 2021 to June 2023	Alessandro Paolini
v1.1	2021-08-18	replaced the name of a component provider: CSIC is the correct name to use instead of IFCA; corrected the link to the report template;	Alessandro Paolini
v1.2	2022-05-25	yearly review; yearly review; introduced the term Service Supplier; updated section 7 and section 8.	Alessandro Paolini

TERMINOLOGY

The EGI glossary of terms is available at: <u>http://go.egi.eu/glossary</u>

For the purpose of this Agreement, the following terms and definitions apply. The key words "MUST", "MUST NOT", "REQUIRED", "SHALL", "SHALL NOT", "SHOULD", "SHOULD NOT", "RECOMMENDED", "MAY", and "OPTIONAL" in this document are to be interpreted as described in RFC 2119.

The present Agreement ("the Agreement') is made between **EGI Foundation (the Service Provider)** and **CSIC and LIP (the Service Suppliers)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

This Agreement is valid from **01**st January 2021 to 30th June 2023.

The Agreement was discussed and approved by EGI Foundation and the Service Suppliers **24**th **February 2021**.

The Service Suppliers are bound by the terms and conditions of the EGI Default Operational Level Agreement¹ supplemented by the terms and conditions of this specific Agreement:

1 The Services

The Services are defined by the following properties:

Technical	The DEEPaaS Training Facility service offers a set of tools to build and train		
	Machine Learning, Artificial Intelligence and Deep Learning models in distributed e- Infrastructures leveraging GPU resources. Models can be built from scratch or form existing and pre- trained models (transfer learning or model reuse). The current set of features is:		
	• Transparent training over distributed e-Infrastructures with GPU access.		
	 Docker based for model portability and reusability. Easy model integration with REST APIs. 		
	CLI and web user interface to interact with the system.OpenID Connect based identity.		
	The service should be offered as a centrally managed instance that will run by the project and will provide access to both generic and thema users. Additionally, the provider should be capable of setting up dedicat instances to specific communities as needed upon request. DEEPaaS Traini Facility instance for EGI-ACE should :		
	 integrate with EGI Check-in for authentication and authorisation of users 		
	 support the main IaaS APIs available in EGI Cloud (OpenStack, OpenNebula) and optionally support other IaaS APIs of commercial cloud providers (AWS, GCP, Azure) 		
	 integrate with EGI information sources to facilitate the use of resources and selection of the best cloud provider 		

¹ <u>https://documents.egi.eu/document/2752</u>

Coordination	This activity is responsible for the coordination of the service maintenance activities with EGI operations team and other technology providers for the EGI Core Infrastructure.			
Operation	 Daily running of the service. Provisioning of a high availability configuration. CSIC and LIP will provide a redundant configuration for the web user interfaces 			
	 Additional HA setup will be studied during the service operations, in coordination with other service dependencie (i.e. PaaS orchestrator). 			
	 Creating an Availability and Continuity Plan and implementin countermeasures to mitigate the risks defined in the related ri- assessment. 			
Maintenance	 This activity includes: Requirements gathering Maintenance of probes to test the functionality of the service Documentation 			

2 Service hours and exceptions

As defined by the EGI Default Operational Level Agreement.

3 Support

As defined by the EGI Default Operational Level Agreement.

Support is provided via EGI Service Desk² Support Unit: <a>

<a>

Access requires a valid X.509 or the login via a EGI SSO account³.

Support is available between:

- Monday and Friday
- 9:00 and 17:00 CET/CEST time

³ <u>https://www.egi.eu/sso/</u>

² <u>http://helpdesk.egi.eu/</u>

This excludes public holidays at the same time in all organisations providing the service.

3.1 Incident handling

As defined by the EGI Default Operational Level Agreement.

3.2 Service requests

In addition to resolving incidents, standard service requests (e.g. change requests, information requests, documentation) will be fulfilled through the defined support channels in the same way as incidents. Service requests are classified as "Less urgent".

4 Service level targets

Monthly Availability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as a percentage per month): 95%

Monthly Reliability

- Defined as the ability of a service or service component to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as a percentage per month): 95%

Quality of Support level

• Medium (Section 3)

5 Limitations and constraints

As defined by the EGI Default Operational Level Agreement.

6 Communication, reporting and escalation

6.1 General communication

The following contacts will be generally used for communications related to the service in the scope of this Agreement.

Service Provider contact	Alessandro Paolini	
	operations@egi.eu	

	EGI Foundation Operations officer	
Service Suppliers contact	CSIC: Álvaro López García: <u>aloga@ifca.unican.es</u>	
	LIP: Mario David: <u>david@lip.pt</u>	
Service Support contact	See Section 3	

6.2 Regular reporting

As part of the fulfilment of this Agreement and provisioning of the service, the following reports will be provided:

Report title	Contents	Frequency	Produced by	Delivery
Service Performance Report	The document provides an overall assessment of service performance (per month) and OLA target performance achieved during reporting period	10 months (first report covering the period Jan – Oct 2021)	Service Suppliers	Survey form prepared by EGI Foundation

All reports shall follow predefined templates⁴.

6.3 Violations

The Service Suppliers commit to inform the Service Provider if this Agreement is violated or violation is anticipated. The following rules are agreed for communication in the event of violation:

- In case of any violations of the Services targets, the Service Suppliers will provide justifications and a plan for Services enhancement to the Service Provider. The Service Suppliers will produce a status report and a Service enhancement plan for the improvement of the Services within one month from the date of the first notification.
- The Service Provider will notify the supporting Resource Centres in case of suspected violation via the EGI Service Desk. The case will be analysed to identify the cause and verify the violation.

6.4 Escalation and complaints

For escalation and complaints, the Service Suppliers contact point shall be used, and the following rules apply.

⁴ <u>https://documents.egi.eu/document/2881</u>

- In case of repeated violation of the Services targets for two consecutive months or four months over a period of 12 months, a review of the Agreement and of the Services enhancement plan will take place involving the parties of the Agreement.
- Complaints or concerns about the Services provided should be directed to the Service Suppliers contact who will promptly address these concerns. Should the Service Provider still feel dissatisfied, about either the result of the response or the behaviour of the Service Suppliers, EGI Foundation Director <u>director@egi.eu</u> should be informed.

7 Information Security and data protection

As defined by the EGI Default Operational Level Agreement.

The following rules for Information Security and data protection should be enforced when they are applicable:

- The Service Suppliers agree to make every effort to maximise security level of users' data and minimise possible harm in the event of an incident. Security Incidents affecting the services described in Section 1 must be immediately reported to the EGI Foundation using ism@mailman.egi.eu and will have to be reported to EGI CSIRT using <u>abuse@egi.eu</u> within 4 hours after their discovery and handled according to the SEC01⁵ procedure.
- EGI Foundation holds the role of the Data Controller while the Service Suppliers holds the role of Data Processor. Data Processing Agreements must be signed between EGI Foundation (the Data Controller) and Service Suppliers (the Data Processor).
- The Service Suppliers must comply with the EGI Policy on the Processing of Personal Data⁶ and provide a Privacy Notice. This privacy Notice must be agreed with EGI Foundation and must be based on the Privacy Policy template provided by the AARC Policy Development Kit (PDK)⁷.
- The Service Suppliers must enforce the EGI WISE Acceptable Usage Policies⁸.
- The Service Suppliers shall comply with all principles set out by the GÉANT Data Protection Code of Conduct⁹ in its most current version, which will be made available to the Component Provider by EGI Foundation upon request.
- The Service Suppliers must meet all requirements of any relevant EGI policies or procedures¹⁰ and also must be compliant with the relevant national legislation. Regarding EGI requirements, please refer to the following reference documentation:
 - o EGI-doc-3015: e-Infrastructure Security Policy

8 Responsibilities

8.1 Of the Service Suppliers

Additional responsibilities of the Service Suppliers are as follows:

- Adhering to all applicable operational and security policies and procedures¹¹ and to other policy documents referenced therein.
- Using communication channels defined in the agreement.
- Ensuring that the service is accessible only by users belonging to countries that are part of EGI Council or of MoUs.
- Attending OMB¹² and other operations meetings when needed.
- Accepting EGI monitoring services provided to measure fulfilment of agreed service level targets.
- The service endpoints with associated roles is registered in GOC DB¹³ as site entity under EGI.eu Operations Centre hosting EGI central operations tools¹⁴.
- Changes in the system must be rolled in production in a controlled way in order to avoid service disruption.
- Putting in place an effective way to manage and control configuration items and changes such that they can meet the CHM requirements coming from EGI as a customer including making risk assessments and considering high risk changes.

8.1.1 Software compliance

Unless explicitly agreed, software being used and developed to provide the service should:

- Be licensed under an open source and permissive licence (like MIT, BSD, Apache 2.0,...).
- Unless otherwise agreed, be licensed to provide unlimited access rights to the EGI Federation.

¹⁴ <u>https://goc.egi.eu/portal/index.php?Page_Type=NGI&id=4</u>

¹¹ https://www.egi.eu/about/policy/policies_procedures.html

¹² <u>https://wiki.egi.eu/wiki/OMB</u>

¹³ <u>http://goc.egi.eu/</u>

- Have source code publicly available via a public source code repository (if needed a mirror can be put in place under the EGI organisation in GitHub¹⁵.) All releases should be appropriately tagged.
- Adopt best practises:
 - Defining and enforcing code style guidelines.
 - Using Semantic Versioning.
 - Using a Configuration Management frameworks such as Ansible.
 - Taking security aspects into consideration at every point in time.
 - Having automated testing in place.
 - Using code reviewing.
 - Treating documentation as code.
 - Documentation should be available for Developers, administrators and end users.

8.1.2 IT Service Management compliance

- Key staff who deliver services should have foundation or basic level ITSM training and certification
 - ITSM training and certification could include standards and best practises such as FitSM, ITIL, ISO 20000 etc.
- Key staff and service owners should have advanced/professional training and certification covering the key processes for their services.
- Service Suppliers should have clear interfaces with the EGI SMS processes and provide the required information.
- Service Suppliers should commit to the continuous improvement of their management system used to support the services they provide.

8.2 Of the Service Provider

The responsibilities of the Service Provider are:

- Delivering and planning the Services component according to an ISO 20000 compliant manner.
- Raising any issues deemed necessary to the attention of the Service Suppliers.
- Collecting requirements from the Resource infrastructure Providers.
- Supporting coordination with other EGI services.
- Providing monitoring to measure fulfilment of agreed service level targets.

9 Review, extensions, and termination

There will be reviews of this Agreement at planned intervals according to the following rules:

¹⁵ <u>https://github.com/EGI-Foundation</u>

- Technical content of the agreement and targets will be reviewed on a yearly basis.
- EGI Foundation shall be entitled to conduct audits or mandate external auditors to conduct audits of suppliers and federation members. These will aim at evaluating the effective provision of the agreed service or service component and execution of activities related to providing and managing the service prior to the commencement of this agreement and then on a regular basis. EGI Foundation will announce audits at least one month in advance. The provider / federation member shall support EGI Foundation and all auditors acting on behalf of EGI Foundation to the best of their ability in carrying out the audits. The provider / federation and evidence necessary. Efforts connected to supporting these audits by the provider / federation member will not be reimbursed.
