The present Operational Level Agreement (“the Agreement”) is made between **EGI Foundation (the Service Provider)** and **IFCA-LCG2 (the Component Provider)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

**The DEEP Training Facility is a distributed training facility for Machine Learning, Artificial Intelligence and Deep Learning models.**

**The DEEP Training Facility provides tools for building training, testing and training Machine Learning, Artificial Intelligence and Deep Learning models over distributed e-Infrastructures.**

**Models can be built from scratch or from existing and pre-trained models (transfer learning or model reuse). Ready to use models are available for transfer learning or reuse.**

**Features:**

- **Transparent training over distributed e-Infrastructures with GPU access.**
- **Docker based for model portability and reusability.**
- **Easy model integration with standards-based REST APIs.**
- **CLI and web user interface to interact with the system.**
- **OpenID Connect based identity.**

The Customer is a DEEP Hybrid DataCloud consortium represented by **IFCA - CSIC**.

This Agreement is valid from **01/05/2021** to **30/06/2023**.

Once approved, **this Agreement is automatically renewed**, as long as the Component Provider does not express a decision to terminate the Agreement at least a month before the end date of the Agreement.

The Agreement was discussed and approved by the EGI Foundation and the Component Provider on **24/05/2021**.

The Agreement extends the Resource Center OLA<sup>1</sup> with the following information:

## 1 The Services

Possible allocation types:

- **Pledged** - Resources are exclusively reserved to the Community and the job will be executed immediately after submission.
- **Opportunistic** - Resources are not exclusively allocated, but subject to local availability.
- **Time allocation** - Resources are available in fair share-like mode for a fixed time period.

Possible payment mode offer:

---

### 6.2 Regular reporting

As defined in Resource Center OLA<sup>9</sup>.

### 6.3 Violations

The Component Provider commits to inform the EGI Foundation, if the Agreement is violated or violation is anticipated.

<sup>8</sup> <https://documents.egi.eu/document/31>

<sup>9</sup> <https://documents.egi.eu/document/31>

The following rules are agreed for communication at the event of the violation:

- In case of violations of the Services targets for **four months (within reporting period) or two consecutive months**, the Component Provider will provide justifications to EGI Foundation.
- In case of service target violation, the Component Provider must provide justifications and a plan for service enhancement **within 10 working days** from the date of the notification to/from the EGI Foundation.
  - In case of no or unsatisfactory justification and plan for improvement, EGI Foundation reserves the right to replace the Component Provider.
- EGI Foundation will notify the supporting Component Provider in case of suspected violation via the EGI Service Desk (Section 3). The case will be analysed to identify the cause and verify the violation.

## 6.4 Escalation and complaints

For escalation and complaints (A customer complaint is a customer's expression of dissatisfaction with an EGI service, either orally or in writing), EGI Foundation contact (section 6.1) point shall be used, and the following rules apply.

- In case of repeated violation of the Services targets for **four months (within reporting period) or two consecutive months**, a review of the Agreement will take place involving the parties of the Agreement.
- Customer complaints or concerns about the Service(s) provided directed to the EGI Foundation contact will be shared with corresponding Component Providers.

## 7 Information security and data protection

As defined by the EGI Default Operational Level Agreement<sup>10</sup>.

The following rules for information security and data protection related to the Service apply.

- Assertion of absolute security in IT systems is impossible. The Component Provider is making every effort to maximize the security level of users' data and minimise possible harm in the event of an incident.
- The Component Provider will define and abide by an information security and data protection policy related to the service being provided.
- The parties of the Agreement will meet all requirements of any relevant policy or procedure of the Provider<sup>11</sup> and will comply with the applicable national legislation.
- The Component provider holds the role of the data controller.
