7 Information security and data protection

As defined by the EGI Default Operational Level Agreement¹⁹.

¹⁹ <https://documents.egi.eu/document/2752>

The following rules for Information Security and data protection must be enforced by the Component Provider:

- Make every effort to maximise the security level of users' data and minimise possible harm in the event of an incident. Incidents must be immediately reported to the EGI Computer Security Incident Response Team (CSIRT) according to the SEC01 procedure²⁰.
- For the processing of access data (i.e. data related to authentication going through Check-in), the Customer's Home Organisation, EGI Foundation (the Service Provider) and the Component Providers hold the role of data controllers. As part of the authentication process, personal data is transmitted between these data controllers based on the consent of the user (data subject). In this context, and unless it has been agreed to use a different model, there is no need for having any particular data processing agreement in place.
- In the case the Customer, as a Data Controller, is processing any personal data (research data, personal data of their users or visitors) on the provided resources, EGI Foundation holds the role of Data Processor and the Component Provider the role of sub-processor. In that situation, when the Data Controller requests having a DPA signed with EGI Foundation as a processor, an additional subcontractor agreement has to be signed between EGI Foundation and the Component Provider as sub-processor.
- The Component Provider must comply with the EGI Policy on the Processing of Personal Data²¹ and provide a Privacy Policy. This Privacy Policy can be based on the Privacy Policy template provided by the AARC Policy Development Kit (PDK)²².
- The Component Provider must enforce the Acceptable Use Policy and Conditions of Use²³.
- The Component Provider must comply with all principles set out by the GÉANT Data Protection Code of Conduct²⁴ (v1.0).
- Security incidents affecting the services described in Section 1 must be reported to abuse@egi.eu within 4 hours after their discovery and handled according to [SEC01: EGI CSIRT Security Incident Handling Procedure](#).
- The Component Provider must meet all requirements of any relevant EGI policies or procedures²⁵ and also must be compliant with the relevant national legislation. Regarding EGI requirements, please refer to the following reference documentation:
