The present Service Level Agreement (“the Agreement”) is made between **EGI Foundation (the Service Provider)** and **ENVRI-FAIR/vo:vo.envrihub.eu (the Customer)** to define the provision and support of the provided services as described hereafter. Representatives and contact information are defined in Section 6.

Each of the Research Infrastructures (RIs) working in the ENVRI-FAIR¹ Science Cluster gathers and manages a wealth of environmental data and model results, divided over 4 subdomains: Atmosphere, Marine, Solid Earth and Biodiversity / Ecosystems and thus the Earth system in its full complexity.

As part of ENVRI-FAIR they are working together on assessing and improving the FAIRness of their RIs, with the aims to make the data and associated services for discovery and access as open as possible, and to apply FAIR practices for achieving interoperability and reusability of the datasets. This is a fundamental requirement for policy, science, industry and the public to be able to rely on the environmental data as made available by these RIs. The environmental data together provides a major opportunity to determine the state and follow trends and drivers in the development of our Earth system. And this way, keeping a close watch on environmental boundary conditions and informing society stakeholders on short to long term developments therein, will be of imminent economic value. This can be implemented by means of a ‘dashboard’² with a set of easily understandable real-time indicators which inform public and policy makers on the state of the environment. For example, with regards to current and predicted state of climate in vulnerable regions, the progress in mitigation of greenhouse gas emissions, earthquake risks, algae bloom in coastal waters, etc. The dashboard should serve as the main switchboard to drill down to underlying data and models and to give visibility to the contributions of elaborated products provided by scientific communities and external parties. The dashboard should be mounted as a front-end of the ENVRI-Hub, a virtual common platform for ENVRI-FAIR data and services, and integrated in the EOSC portal.

The Customer is a consortium represented by the **ICOS ERIC**³.

The Component providers are delivering a part of the Service(s) and are listed in Section 1.

This Agreement is valid from **01/07/2022** to **30/06/2023**.

The Agreement was discussed and approved by the Customer and the Provider on **01/08/2022**.

1 The Services

All services provided by EGI are listed under: <https://www.egi.eu/services/>

Possible allocation types:

¹ <https://envri.eu/home-envri-fair/>

² <https://envrihub.vm.fedcloud.eu/>

³ <https://www.icos-cp.eu/>

- **Pledged** - Resources are exclusively reserved to the Community.
- **Opportunistic** - Resources are not exclusively allocated, but subject to local availability.
- **Time allocation** - Resources are available for a fixed time period.

Possible payment mode offer:

2 Service hours and exceptions

The Services operate during the following hours: twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days a year.

The following exceptions apply:

- Planned maintenance windows or service interruptions (“scheduled downtimes”¹⁵) will be notified via email in a timely manner i.e. 24 hours before the start of the outage¹⁶.
- Downtime periods exceeding 24 hours need justification.

3 Support

Support is provided via EGI Service Desk¹⁷. Access requires a valid X.509 or the login via an EGI Check-in. Support is available between:

- Monday to Friday.
- From 9:00 to 17:00 in the time zone of the relevant Resource Centres.

Service times always apply with the exception of public holidays in the country of the supporting Resource Centres.

3.1 Incident handling

Incidents will be handled according to the Quality of Support level that is estimated according to the impact of the outage or service quality degradation.

The Quality of Support in this Agreement has level: **Medium**¹⁸

Incident priority	Response time
Less urgent	5 working days
Urgent	5 working days
Very Urgent,	1 working day
Top Priority	1 working day

so the incidents, based on their priority will be responded to with the following response times:

Incident priority ¹⁹	Response time	Comment

¹⁹ <https://docs.egi.eu/internal/helpdesk/features/ticket-priority/>

Less urgent	5 working days	wishes and enhancements that are "nice to have"
Urgent	5 working days	service degraded; work-around available
Very Urgent	1 working day	service degraded; no work-around available
Top Priority	1 working day	service interrupted; needs to be addressed as soon as possible

Table 1. Response times to incidents according to the incident priority of "Medium" services

3.2 Service requests

In addition to resolving incidents, standard service requests²⁰ will be fulfilled through the defined support channels in the same way as incidents. Service requests are classified as "Less urgent".

4 Service level targets

Monthly Availability

- Defined as the ability of a service to fulfil its intended function at a specific time or over a calendar month.
- Minimum (as an average percentage per month):
 - Service [Check-In]: 95%
 - Service [Cloud Compute]: 85%
 - GSI-LCG2: 85%
 - Service [Online Storage]: 85%
 - GSI-LCG2: 85%

Monthly Reliability

- Defined as the ability of a service to fulfil its intended function at a specific time or over a calendar month, excluding scheduled maintenance periods.
- Minimum (as an average percentage per month):
 - Service [Check-In]: 95%
 - Service [Cloud Compute]: 90%
 - GSI-LCG2: 90%
 - Service [Online Storage]: 90%
 - GSI-LCG2: 90%

Quality of Support level

- Medium (Section 3)

5 Limitations and constraints

The Services provisioning is subject to the following limitations and constraints.

- Support is provided in English.
- Availability and Reliability calculations are based on the Service Monitoring operational results.
- Failures in VO monitoring are not considered as SLA violations.
- Downtimes needed to ensure the security of the Service issues are not considered Agreement violations.
- Failures of resource providers not being part of EGI production infrastructure are not considered as Agreement violations.
- The individual service components that provide resources may be terminated or replaced due to failure, retirement or other requirement(s). EGI Foundation has no liability for any damages, liabilities, losses (including any corruption, deletion, or destruction or loss of data, applications or profits), or any other consequences resulting from the foregoing.
- Force Majeure. A party shall not be liable for any failure or delay in the performance of this Agreement for the period that such failure or delay is due to causes beyond its reasonable control. Means any
 - fire, flood, earthquake or natural phenomena,
 - war, embargo, riot, civil disorder, rebellion, revolutionwhich is beyond the Provider's control, or any other causes beyond the Provider's control

6 Communication, reporting and escalation

6.1 General communication

The following contacts will be generally used for communications related to the Service(s) in the scope of this Agreement.

Customer contact	Alex Vermeulen alex.vermeulen@icos-ri.eu
Customer technical contact	Gomes, Ana Rita a.gomes@fz-juelich.de Chris Schleiermacher c.schleiermacher@fz-juelich.de
EGI Foundation contact	Giuseppe La Rocca sla@mailman.egi.eu SLA Coordinator at EGI Foundation

EGI Foundation technical contact	Matthew Viljoen operations@egi.eu Operations manager at EGI Foundation
Service Support contact	See Section 3

6.2 Regular reporting

As part of the fulfilment of this Agreement and provisioning of the Service(s), the following reports will be provided:

Report title	Contents	Frequency	Produced by	Delivery
Services Performance Report	The document provides an overall assessment of service performance (per month) and SLA target performance achieved during the last 6 months	Every six months	EGI Foundation	Email to the Customer
Scientific Publications report	The document provides a list of scientific publications benefiting from the Service.	Yearly and with the Agreement ending.	Customer	During satisfaction review

Service Performance Report:

- EGI Foundation will provide every six months a written report about the performance of the Service(s) with the justification of any underperforming and SLA violation.

Scientific Publication report:

- The Customer will provide a list of publications supported by the Service(s) and acknowledging the usage of the Service(s).

The acknowledgement statement specified in Section 8.2 shall be included in the Customer's website and reported in any scientific publications profiting from the use of the Services defined in Section 1.

All reports shall follow predefined templates²¹.

6.3 Violations

The EGI Foundation commits to inform the Customer, if this Agreement is violated or violation is anticipated. The following rules are agreed for communication in the event of violation:

²¹ <https://documents.egi.eu/document/2748>

- In case of violations of the Services targets for **four months** or **two consecutive months**, EGI Foundation will provide justifications to the Customer.
 - In case of unavailability of the Component Provider to provide the Service(s), the EGI Foundation will search for a new Component Provider and support migration.
- The Customer will notify the supporting Component Provider in case of suspected violation via the EGI Service Desk (Section 3). The case will be analysed to identify the cause and verify the violation.

6.4 Escalation and complaints

For escalation and complaints (A customer complaint is a customer's expression of dissatisfaction with an EGI Service, either orally or in writing), EGI Foundation contact (section 6.1) point shall be used, and the following rules apply.

- In case of repeated violation of the Services targets for **four months** or **two consecutive months**, a review of the Agreement will take place involving the parties of the Agreement.
- Complaints or concerns about the Services provided should be directed to the EGI Foundation contact who will promptly address these concerns. Should the Customer still feel dissatisfied, about either the result of the response or the behaviour of the supporting Component Provider, complaints@egi.eu should be informed.

7 Information security and data protection

The following rules for information security and data protection related to the Service(s) apply.

- The Customer must comply with the Acceptable Use Policy and Conditions of Use (AUP)²², if a service-specific or Component Provider-specific AUP is not provided to the Customer or displayed when accessing the service, the general EGI Federation AUP applies.
- When the Customer is managing a community to manage access to the resources, they must comply with the Community Membership Management Policy²³.
- For the processing of access data (ie. data related to authentication going through Check-in):
 - The roles according to GDPR are the following:
 - The Customer's Home Organisation holds the role of independent Data Controller.
 - EGI Foundation (the Service Provider) and the Component Providers hold the role of independent Data Controllers.
 - In this context and unless it has been agreed to use a different model, there is no need for having any particular agreement in place.

²² <https://documents.egi.eu/document/3600>

²³ <https://documents.egi.eu/document/3234>

- In the case the Customer, as a Data Controller, will process personal data (research data, personal data of their users or visitors) on the provided resources, EGI Foundation (the Service Provider) will be acting as a Data Processor and enter in a Data Processing Agreement (DPA) with the Data Controller. As an additional service, EGI Foundation provides standard templates for Data Processing Agreements (DPA) with EGI Foundation as a Data Processor²⁴ that can be used by the Data Controller. If a DPA is being put in place and if EGI Foundation is involving sub-processors, sub-processor agreements will be signed between EGI Foundation and the Component Providers acting as sub-processors.
 - When EGI Foundation is acting as a Data Processor, the Technical and Organisational Measures (TOM) put in place by EGI Foundation to protect personal data during their processing can be consulted in the EGI Document Database²⁵.
 - In situations where other organisations are acting as subcontracted data processors on behalf of EGI Foundation, EGI Foundation aims at ensuring that the technical and organisational measures implemented by the subcontracted processors equal at minimum the processing security level indicated by EGI Foundation TOM.
- EGI Foundation and their subcontracted data processors, if any, comply with the EGI Policy on the Processing of Personal Data²⁶.
- In case the service or provider's privacy policy is not supplied to the Customer, or is not displayed when accessing a given service, the Customer can refer to the one published on the EGI Website²⁷.
- EGI Foundation is conforming to the GÉANT Code of Conduct (v1.0) and personal data will be processed in accordance with the Code of Conduct for Service Providers²⁸.
- Security incidents affecting the services described in Section 1 must be reported to abuse@egi.eu within 4 hours after their discovery and handled according to [SEC01: EGI CSIRT Security Incident Handling Procedure](#).
- Additional policies and procedures to be enforced across the EGI Federation are in place²⁹, notably:
 - [EGI-doc-3015: e-Infrastructure Security Policy](#)
 - [EGI-doc-3601: Service Operations Security Policy](#)
 - [EGI-doc-2934: Security Traceability and Logging Policy](#)
 - [EGI-doc-2935: Security Incident Response Policy](#)

8 Responsibilities

8.1 Of EGI Foundation

Additional responsibilities of EGI Foundation are as follows.

- EGI Foundation monitors the Service(s) and its components in order to measure the fulfilment of the agreed service level targets.
- EGI Foundation retains the right to introduce changes in how the Service is provided, in which case the Service Provider will promptly inform the Customer and update the Agreement accordingly.

8.2 Of the Customer

Additional responsibilities of the Customer are:

- **The customer facilitates the use of EGI acknowledgement by communicating to users the need of adding the following sentence in acknowledgement: "This work used the EGI infrastructure with the dedicated support of the EOSC Future (project #101017536) and EGI-ACE (project# 101017567) the European Union's Horizon 2020 research and innovation programme under grant agreement No. 101017567 with the dedicated support of GSI-LCG2".**
- The Customer will provide during Agreement review (yearly) list of scientific publications benefiting from the Service(s) defined in Section 1.
- The data stored in the system by the Customer must not cause any legal violation due to the content type (such as copyright infringement, dual use, illegal material).
- By default, the data stored in the Service Provider by the Customer are not backed-up except if explicitly specified in the Agreement.
- The Customer will notify the Service Provider in case the actual amount of the Service(s) used results in being under- or over-estimated. The Customer will request an update of the Agreement to ensure optimal usage of the Service(s).
- The Customer will create, with the support of the Service Provider, one or more Virtual Organisations (VOs) to define the group of users entitled to access the Service. Information about the VO will be regularly updated in EGI Operations Portal³⁰. Management of the VO should be done according to the Community Membership Management policy documented in Section 7.
- The Customer must request EGI Service Desk support³¹ to enable assigning tickets with the appropriate VO name.

³⁰ <http://operations-portal.egi.eu/>

³¹ https://wiki.egi.eu/wiki/FAQ_GGUS-New-Support-Unit

- When applicable, the Customer is responsible for ensuring that the Virtual Machine images endorsed and listed in the AppDB³² VO image lists are properly maintained and updated.
- The Customer is responsible for the management of their own data including movement or removal of the data once the agreement is terminated.

9 Review, extensions and termination

The Services performance will be reviewed against the defined Service level targets according to Section 4. The Agreement will be annually reviewed until expiration.

If the Customer wishes to extend the duration after the Agreement termination date, an extension will be negotiated with EGI Foundation. **The extension of the agreement between the Customer and the Service Provider shall be justified upon the receiving of a list of scientific publications produced during the duration of the agreement, and the effective use of the Service(s) as reported in the EGI Accounting Portal³³.**

EGI Foundation retains the right to introduce changes in the Service, in which case the Customer retains the right of terminating the Agreement.

The Agreement can be terminated at any time upon agreement of the parties. Amendments, comments and suggestions must be addressed to EGI Foundation and the Customer according to Section 6.
